## XLIII. CONGRESS.

### FIRST SESSION.

WASHINGTON, D. C., April 20, 1874.

SENATE.

On motion of Mr. WEST, a bill was introduced for the relief of persons suffering from the overflow of the Mississippi river.

Mr. EDMUNDS, from the Judiciary Committee, reported unfavorably on the bill for the relief of purchasers of lands sold by direct taxes in insurrectionary States.

At the request of Mr. CLAYTON, the bill was placed upon the calendar with an adverse report.

Mr. CLAYTON, from the Committee on Military Affairs, reported a bill to equalize the bounties of soldiers who served in the late war. Placed on the calendar. It provides that there shall be paid to every honorably discharged non-commissioned officer, private soldier, musician, artificer and wagoner, including those borne on the rolls as slaves, who served the United States in the war of the rebellion, the sum of eight and one-third dollars per month for all his time of service between April 12th, 1861, and May 9th, 1865, or, in the case of a volunteer, up to the time of muster out of the volunteer organizations to which he belonged. In case of the death of any such person, payment is to be made to his widow and children. Any bounties heretofore received from the United States or any State, are to be deducted from the allowance hereby authorized. No bounties shall be paid to substitutes or to persons discharged as minors. No attorney shall be allowed, on pain of fine and imprisonment, to receive more than ten dollars for prosecuting any claim under the foregoing provisions.

Mr. BOUTWELL gave notice that on Monday next, after the reading of the journal, he would introduce a resolution commemorative of the life, character and services of his late colleague, Charles Sumner, and would ask the Senate to proceed to its consideration then.

Mr. SPENCER, from the Committee on Commerce, called up the House bill to enable the Secretary of the Treasury to gather authentic information as to the condition and importance of the fur trade in the Territory of Alaska. Passed.

The Senate then proceeded to the consideration of the bill to authorize the issue of a supply of arms to the authorities of the State of Nebraska.

Mr. BUCKINGHAM submitted an amendment, providing that a supply of arms should also be issued to the Indians to protect themselves from the raids of settlers.

After debate Mr. BUCKINGHAM withdrew his amendment and offered another, providing that the State of Nebraska should furnish the Federal government with good and sufficient bonds that the arms should not be used for any other purpose than that named in the bill—"protection against Indian hostilities."

Mr. LOGAN expressed surprise at the course of his friend from Connecticut (Buckingham), and spoke of Indian atrocities in Minnesota and elsewhere, where children were taken from their mothers' arms and their brains dashed out on the spot.

Pending discussion, the morning hour expired and the bill went over.

Mr. CARPENTER, from the Committee on Privileges and Elections, made a report in the case of Sykes against Spencer, for a seat as United States Senator from Alabama, with a recommendation that Spencer retain his seat and the committee be discharged from further consideration of the subject.

Mr. SAULSBURY presented the report of the minority of the committee, signed by himself and Mr. Hamilton of Maryland. Both reports were ordered printed. The Senate resumed consideration of the Louisiana bill.

Mr. BAYARD offered the amendment of which he gave notice a few days ago, declaring that John McEnery was elected Governor and Davidson B. Penn Lieutenant Governor, and that they were unlawfully compelled by armed forces, acting under the authority of the President of the United States, from discharging their respective official duties; that Kellogg and Antoine did, by unauthorized and illegal action and the interference of federal authorities, civil and military, obtain and hold armed possession of the offices of Governor and Lieutenant Governor; and requesting the President to issue his proclamation, within ten days after the passage of this act, notifying the people of Louisiana that all hindrance, obstacle or impediment on the part of the government of the United States, to the peaceable and legal assumption of the offices of Governor and Lieutenant Governor, is withdrawn, so that they may, without let or hindrance, proceed to fill those offices; and that persons elected to the General Assembly on the fusion ticket may take their seats.

The whole question was again discussed by Messrs. BOGY, BAYARD, SHERMAN and MORTON.

Mr. SCOTT said if no other Senator desired to speak on the Louisiana bill, he would ask the Senate to take up the bill to provide for the payment of the bonds of the Louisville and Portland Canal, that it might be proceeded with to-morrow.

Mr. CARPENTER said he hoped that it would not be done. The Louisiana bill should be disposed of without delay.

Mr. STOCKTON obtained the floor to speak on the bill, but yielded for an Executive session.

The Senate soon after adjourned.

HOUSE.

Under a call of States, various bills were introduced and referred, including the following:

By Mr. O'BRIEN, To abolish the grade and rank of commodore; also to authorize Indian nations and tribes, in their corporate capacity and individual members thereof, to sue and be sued in the United States courts.

By Mr. FOSTER (by request), Providing for the collection of money and the recovery of lands wrongfully withheld from the government by the Kansas Pacific Railroad Company.

Mr. GIDDINGS moved to suspend the rules and pass the bill for the better protection of the frontier settlements of Texas against Indians and Mexican desperadoes, by the construction and maintenance of a line of telegraph from Denison, Texas, to Fort Sill, Indian Territory, and thence along the northern frontier line of the settlements and by various military posts to Brownsville, and appropriating one hundred thousand dollars for that purpose. Agreed to, and the bill was passed.

By Mr. SOUTHARD, To fix the compensation of the President of the United States at $25,000 per annum.

By Mr. STARKWEATHER, Levying a tax of one-twentieth of one per cent. on the sale of stocks, bonds, gold and silver bullion, promissory notes and other securities.

By Mr. BECK, Increasing the tax on the circulation of national banks from one-twelfth to one-quarter per cent. per month. He moved to have the bill referred to the Committee on Ways and Means.

Mr. MAYNARD moved its reference to the Committee on Banking and Currency, remarking that the effect, if not the object, of the bill was to tax national banks out of existence.

Mr. BECK said it was nothing of the sort.

After a brief discussion, the bill was referred to the Committee on Banking and Currency—yeas 110, nays 102.

Mr. BECK, of Kentucky, desired to withdraw the bill, remarking that he did not want it smothered.

The SPEAKER decided that the bill could not be withdrawn, and it was therefore referred to the Banking Committee.

Mr. POLAND offered a resolution for the recognition of Cuban independence, being the same recently introduced in the Senate by Mr. Carpenter. Referred.

Mr. KILLINGER offered a resolution instructing the Committee on Banking and Currency to inquire into the expediency of establishing by law a uniform rate of interest throughout the United States and Territories. Adopted.

Mr. KELLEY moved to make the bill appropriating three millions for the Centennial Celebration the special order for the fifth of May next.

Mr. HAWLEY said the object of the motion was to get the question before the House and let the House say, yes or no, whether the celebration is to go on or to be abandoned, to the shame and mortification of the country.

Mr. HALE, of Maine, protested against the House being called upon to consider an appropriation bill of three million dollars which had not been reported from the regular Appropriation Committee.

Mr. KELLEY—It came from the committee to which the President's message on the subject was referred.

Mr. HOLMAN demanded the yeas and nays on Mr. Kelley's motion.

The rules were suspended and the special order made—yeas 154, nays 66.

Mr. ORR moved to suspend the rules and pass the bill allowing certain fractional townships in Missouri to select their school lands anywhere in the State. Passed.

Mr. WILSHIRE offered a resolution calling on the President for copies of correspondence, telegrams, military orders, &c., touching the troubles in Arkansas. Adopted.

Mr. YOUNG moved to suspend the rules and adopt a resolution reciting the necessity for a cheap system of water transportation and directing the Committee on Railroads and Canals to report a bill for the opening up and improvement of the great natural water highways of the country and their connection by artificial channels, and making it the special order for May 14th.

Mr. McCRARY, chairman of that committee, remarked that such a scheme would involve an outlay of $500,000,000. The rules were not suspended—yeas 130, nays 75—not two-thirds in the affirmative.

Mr. POLAND offered a resolution reciting the conflict of authority between the United States courts and Territorial courts of Utah, and that the enforcement of the laws has been delayed and obstructed, and directing the Judiciary Committee to report a bill for the regulation of the legal jurisdiction of the courts and officers in Utah. Adopted.

The House then went into Committee of the Whole, Mr. Woodford in the chair, on the Legislative, Executive and Judicial Appropriation bill.

After disposing of five pages of the bill, the committee rose.

Mr. ELDRIDGE, from the Judiciary Committee, moved for the discharge from the custody of the Sergeant-at-Arms, of George H. Patrick, of Alabama, he having given a satisfactory excuse for his non-attendance as witness. Agreed to.

The House adjourned.

## The Louisiana Suffering.

NEW ORLEANS, April 20.—Official telegrams received to-day state that the whole country from Monroe to the mouth of Red river is under water, and that ten thousand people in that district will soon be on the verge of starvation. Large numbers of negroes from the overflowed districts are flocking to this city. Governor Kellogg has issued a proclamation to the officials and citizens of the overflowed district, assuring them that the State government has done and is doing all that its resources allow to alleviate the sufferings of those who have been reduced to destitution by the disastrous crevasses and floods consequent upon the recent rain storms. It states that application has been made to the general government for aid, which he has reason to believe will be promptly responded to.

Fresh and brisk west to northwest winds, with clear and clearing weather, are the probabilities for to-day for the Middle States and Lower Lake region.

### COMING DEBATE ON MOIETIES.

### GRAVE CHARGES AGAINST THE POSTOFFICE DEPARTMENT.

Special Dispatch to the Commercial.
WASHINGTON, D. C., April 20, 1874.

**Commander Sir Lambton Loraine,**

of Her Majesty's ship Niobe, called at the President's house to-day, in company with Captain W. Gore Jones, of the royal navy and attachee of the British Legation. The President, however, was not in his office. It will be remembered that this officer, with his vessel, arrived in the harbor of Santiago de Cuba in time to prevent further atrocities by the Spanish butchers of the Virginius prisoners. Last Saturday a joint resolution tendering the thanks of Congress to Commander Loraine was introduced in the House and referred to the Committee on Foreign Affairs. It will be reported back favorably.

**The Moiety Business.**

The House will probably have an opportunity to discuss the moiety question before the report of the Ways and Means Committee on the Sanborn business can be submitted. A clause in the pending Appropriation bill makes an appropriation of one hundred thousand dollars for the pay of informers, and as this clause will be reached, probably to-morrow, an effort will be made to strike it out, and this will bring up the whole moiety question. It is anticipated that the debate on the question will be very lively.

**The Centennial in the House.**

The Centennial party in the House won a decided victory to-day, in the adoption of Judge Kelley's motion to consider the bill making an appropriation of three million dollars, on the fifth day of May. The bill was resisted by members of the Committee on Appropriations, on the ground that it had not taken the usual course, and had not been considered by the Committee on Appropriations. The fact that the House, by a two-third vote, fixed a day for the consideration of the bill, to the exclusion of all other business, is a pretty clear indication that the bill has a fair chance of passing; for, after consideration, only a majority vote will be required to pass it.

**Specific Charges of Postoffice Frauds.**

J. K. Luttrell, a member of Congress from California, who recently made certain charges in the House reflecting upon the Postoffice Department, in connection with mail contracts in the West, to-day appeared before the House Committee on Postoffices and Post Roads, and presented a series of eighteen written charges. He charges, among other things, that Bradley Barlow, C. C. Huntley, Owen Fuller, S. S. Huntley, J. L. Sanderson, J. W. Parker and others have a perfect monopoly of the mail contracts in the Far West; that they had been paid for services never rendered, and that they had given a valuable consideration to other bidders for routes controlled by them, to withdraw their bids. Certain routes are specified, and it is charged that all the contractors above-named controlled the route from Orrville, California, to Portland, Oregon; that the mail was carried by the railroad a part of the distance at the expense of the stage company, while the amount paid to the stage company was greatly in excess of the amount which the law would have allowed for like service by rail. The charges refer at length to the system of straw bids, and it is also charged that F. P. Sawyer controls most of the valuable routes in Texas, and did so by buying off other bidders and giving drafts to them against his quarterly pay, which were audited and approved in Washington. It is also thought that the parties named control over one million dollars of the amount paid by the Postoffice Department for mail service in the Territories. A tabular statement accompanies the charges. A tabular statement is submitted with the charges, showing that the total expenditure for mail service in the Territories, and in the States of Oregon and Nevada, amount to $1,850,662, and the gross proceeds received $362,398, leaving a deficit of $1,438,264. In concluding his charges, Mr. Luttrell says: "I desire to say that I do not present these charges from any partisan motives, but simply that fraud may be prevented and a check put to the operations of a combination formed to swindle the government of millions of dollars, and I am assured by the Postmaster General that he will use every effort to break up the combination. I am satisfied that a thorough investigation will unearth a gigantic fraud and show to your honorable committee that such a combination exists, and is aided and abetted by irresponsible postmasters who approve utterly worthless bonds in order to secure contracts for this combination. I present herewith the names of witnesses whom I desire called to establish the truth of the charges contained herein." The committee will, in a day or two, determine the course of the investigation.

WASHINGTON, D. C., April 20, 1874.

ENCOURAGING WHEAT REPORTS FROM ALL PARTS OF THE COUNTRY.

The Department of Agriculture has received very full information concerning the appearance of wheat throughout the country. The returns cover a very large proportion of the winter wheat area in each State. The winter has been extremely favorable in all sections; no previous season has been more generally so since the inauguration of the crop reports. In the South, very few exceptions to the general vigor, and even a luxuriance of growth have appeared. In the Gulf coast region, the winter pasturing of wheat fields has been practiced to the advantage of the crop. In New York and Pennsylvania the weather since the middle of March has been unfavorable, on account of sudden changes of temperature and cold winds, to the injury of wheat on clay and undrained lands. In Ontario, Niagara, Livingston and Genesee, the four counties which produce one-third of the winter wheat of New York, average expectations are entertained, though some injury from freezing and thawing on low ground is reported. The promise is remarkable in Pennsylvania, nine-tenths of the counties making favorable returns—many of them very flattering. Fully three-fourths of the counties of the Ohio valley report either an average or superior condition. Beyond the Mississippi, Missouri and Kansas have still fewer unpromising reports. There are reports from the Northwest which are more favorable than usual. The prospect in California is very promising, though complaints of injury from an unusual cause, wet weather, come from several counties. The Secretary of the State Board of Agriculture reports promise of forty million bushels in the State.

MESSAGE FROM THE PRESIDENT.

The President to-day sent the following message to Congress:

*To the Senate and House of Representatives:*

Herewith I transmit the report of the Civil Service Commission, authorized by Act of Congress, March 3, 1871, and invite your special attention thereto. If sustained by Congress, I have no doubt the rules can, after the experience gained, be so improved and enforced as to still more materially benefit the public service and relieve the Executive, Members of Congress and Heads of Departments from influences prejudicial to good administration. The rules, as they have heretofore been enforced, have resulted beneficially, as is shown by the opinion of members of the Cabinet and their subordinates in the Departments, and in that opinion I concur; but the rules applicable to officers who are to be appointed by and with the advice and consent of the Senate, are in a great measure impracticable, except in so far as they may be sustained by the action of that body. These must necessarily remain so, unless the direct sanction of the Senate is given to the rules. I advise, for the present, only such appropriations as may be adequate to continue the work in its present form, and would leave to the future to determine whether the direct sanction of Congress shall be given to rules that may, perhaps, be devised for regulating the method of the selection of appointees, or a portion of them, who need to be confirmed by the Senate. The same amount appropriated last year, would be adequate for the coming year, but I think the public interest would be promoted by authority in the Executive for allowing a small compensation for special service performed beyond usual office hours, under the act of 1871, to persons called into the service of the government.

## THE ORMSBY ENGINE HOUSE.

### Meeting of the Special Council Committee ---Action Determined Upon.

The Special Committee of Councils appointed to consider the trouble about the Twenty-fourth ward engine house, rented by the City Property Committee while held and wanted by the Fire Department, met last evening, Mr. Fulton in the chair.

The object of the meeting being stated by the Chair, members of the Fire Commission were called upon to state their case. From the statements made, it appeared that upon consolidation this house, as others of the Volunteer Department, fell to the Commission. It was taken possession of, and the Commission not then wishing to place it in actual use, or having the means to establish a company there, placed a hose carriage and other apparatus in the house and have so held possession ever since. There being need of more protection in that vicinity now, it is proposed to put a hose carriage in active service, and if the house cannot be obtained the Commission will soon be under the necessity of building a new one at considerable expense. It was stated on the part of the Commission that they were satisfied that the trouble occurred only through a misunderstanding; that the City Property Committee had no intention to interfere with this important branch of the city government.

Mr. McClury, a member of the special committee, stated that the property should have rented for $1,500 or more, while it had been leased for three years with coal and gas at the nominal sum of $300 per year. He had also learned that the tenant had sub-letted the rear part for one year at the monthly rent of $18, which of itself showed the value of the place.

Members of the City Property Committee were heard, and on behalf of the committee it was stated that there was no intention to interfere with the Fire Department, and they had rented it supposing that the Fire Board did not want it, and that it was their duty to get something for it. The committee was perfectly willing that the Fire Department should have it.

The special committee, after consultation, decided to recommend to Councils that the Board of Fire Commissioners be authorized to take full possession and put a hose company in service if found necessary.

Adjourned.

### Death's Doings in the Two Cities.

Dr. Snively, Physcian to the Board of Health, reports a total of 62 deaths in this city for the week ending April 18. Of these 35 were males, 27 females; 58 were white and 4 colored. The causes of death were: Atelectasis, 2; acute bronchitis, 1; capillary bronchitis, 1; cancer of stomach, 1; cirrhosis of liver, 1; cerebritis, 1; consumption, 14; convulsions, 3; morbid denition, 1; acute enteritis, 1; scarlet fever, 5; heart, disease not specified, 2; heart, valvular disease, 2; heart, femoral, 1; inanition, 2; jaundice, 1; congestion of lungs, 1; marasmus, 1; measles, 3; old age, 2; general paralysis, 1; premature birth, 2; pneumonitis, 6; pleuro-pneumonia, 1; syphilis congenital, 1; septicemia, 1; unknown, 2, uremia, 1; whooping cough, 1. ALLEGHENY CITY.

Following is the report of the Health Officer of Allegheny City for the past week: Total number of deaths, 24; males, 18; females, 6; all white. The diseases were: Capillary bronchitis, 2; pneumonia, 4; scarlet fever, 2; scarlatina, 2; paralysis, convulsions, cancer, croup, accident, heart disease, chronic bronchitis, old age, congestion of brain, congestion of lungs, exhaustion from difficult parturition, nervous exhaustion, consumption and Bright's disease, each one.

### City Property Committee.

The City Property Committee held a special meeting last evening, W. B. Hunter in the chair.

A communication was received from Mr. W. F. Casey, who stated that his bid for the contract to make the improvements in the lock-up in the Thirteenth ward was incorrect, in that he had made a mistake in it, and asked that he be released from its fulfilment. The letter was received and filed, and Mr. Kerr moved that the contract be given to the next lowest to Mr. Casey. Considerable discussion followed this motion, but it finally prevailed.

The matter of the decoration of the old Lawrenceville borough graveyard in the Seventeenth ward come up, and Mr. Fox stated that the manner in which persons piled dirt in it, turned their horses in for pasture, and otherwise showed disrespect for the resting place of the dead, was shameful, and he deemed it proper for some definite action to be taken concerning it.

On motion, a sub-committee was appointed to take charge of the graveyard, with instructions to ascertain how much it would cost to have the persons buried in it removed and interred in another palce. After the discussion of some further unimportant matters the committee adjourned.

### MESSRS. D. McMILLAN & CO.

### Removal to No. 347 Liberty Street.

Messrs. D. McMillan & Co., the well known dealers in grain, produce, wool and hops, have removed from the old stand, No. 359 Liberty street, to No. 347, six doors below, in the same block, where they will continue their line of trade, making a specialty of grain of all kinds and produce by the car load. They will also handle all smaller produce, from depots, bringing it to store only when they find it to the interest of the shipper to do so. By adopting this plan shippers have very decided advantages. First. Produce at depot, as a general rule, brings a higher price, as it is fresher and in better condition when not hauled about. Second. The firm sells there for cash only, thus insuring prompt returns. Third they save expense of hauling, which is a very considerable item. Salesmen are employed for each department, whose business it is to attend to arrivals of produce, giving notice to customers, and conveying them to the depots, where they can examine the consignments. Five years' experience enables them to guarantee that, by their present arrangement, they can sell produce at less expense to shippers, and make more prompt returns, than any house can possibly do from store.

Market reports will be issued regularly to their patrons every week hereafter, and special information given by letter when the state of the market requires it. A very liberal patronage has been bestowed on this firm during the past year, and theyc ertainly deserve it all, for they have merited success. We cheerfully commend them to all who have produce to sell, feeling satisfied that consignments cannot be placed in better or more competent hands.

### Inducements Offered

for cash and to prompt men at the Checkered Front, 25 cents per barrel on flour, and 1 per cent. on other goods if paid in ten days. See advertisement.

### Dealers Beware

of brands of flour represented by traveling men as being the same as my *Great White River*. The commission they get for their orders amount to a dealer's profit. J. C. Jenkins

### Use Less of Dooley's

than of any other Yeast or Baking Powder, as it is much stronger. Put up full weight. Give it a fair trial.

## ARKANSAS.

### HOSTILE FORCES IN POSITION.

### Government Troops Hold Both at Bay.

### MUCH EXCITEMENT LAST NIGHT.

### A COLLISION SEEMS INEVITABLE.

GREAT EXCITEMENT—ALMOST A COLLISION.

LITTLE ROCK, April 20.—Up to four o'clock, the position of the forces on both sides remained the same, and the Federal troops still occupied a position at the *Gazette* building and United States Court room. It was generally understood that there was a truce up to that time. About then, some little demonstration was made in front of the State House. The Federal troops were marched to the corner of Markham and Louisiana streets, about one hundred yards east of the State House. This move gave rise to a report on the Baxter side that the Federal forces were withdrawn, and the most intense cheering went up from the Baxter side. Generals Newton, Churchill and Barton and their staffs mounted their horses, and by rapid movements put their troops in position. A company was thrown across Markham street, at the intersection of Main, ready to receive an attack or to advance. The colored troops filed out of the Anthony House, Governor Baxter's headquarters, amidst the wildest yells, and marched rapidly to the corner of Main and Second streets. Other forces were distributed around the various avenues of approach. About this time the steamer Hallie arrived from Pine Bluff, with 500 colored Baxter men, under command of Ferd. Havis, colored, a Representative in the Legislature, and also a company of white troops, numbering about seventy men. They marched from the wharf up Markham street, with drum and fife, and appearing in the midst of the excitement, the wildest enthusiasm prevailed among the Baxter crowd. A gun was fired in the direction of the State House about this time, and things were lively. Soon after three Baxter companies, numbering three hundred and fifty men, arrived from Johnson and Pope counties by railroad, and the yelling and shouting on their arrival was intense. As I write (seven o'clock), the Baxter force is making a most noisy demonstration, which extends in almost every direction. One company arrived from Arkadelphia, and two more will be here to-night, one from Searcy and several from other points, to reinforce Baxter. Matters look more warlike at this writing than at any time the past week. Brooks has received a few colored reinforcements to-day. If appearances go for anything, a collision may occur to-night, notwithstanding the Federal forces are between the two contending parties and two pieces of artillery are placed at the intersection of Louisiana and Second streets. At least half of Baxter's troops are colored, as is over half of Brooks'. Nearly all the colored troops of Baxter are from Jefferson county, the home of Senator Clayton. Brooks issued an order to railroad superintendents not to bring troops to the city for Baxter, but the order is not regarded. Brooks obtained several boxes of guns from St. Louis this morning. Baxter has not as yet received any dispatch from the President in regard to retarding his movement towards reclaiming the State House.

10:30 P. M.—The Federal forces drove back the sentinels of Gov. Baxter on Second street from Main to Scott, to-night. They refuse to let any of Baxter's forces pass beyond Main street, or any of the State House party to come further towards Baxter than Louisiana street, the Federal forces being stationed on the latter street, between the two parties. Beyond this no special change has taken place.

COLONEL ROSE UNRUFFLED.

WASHINGTON, April 20.—The commandant of the troops at Little Rock telegraphs that Brooks' and Baxter's forces are small, that there is some excitement, but that it will soon subside.

"IN PLACE, REST."

LITTLE ROCK, April 20.—There is no change in the situation. A company of United States soldiers occupies the telegraph office and *Gazette* building. A few additional companies have been added to Baxter's force, and one to Brooks, the men on both sides are resting on their arms.

THE Great White River Flour is now being made under a new patent, and is giving general satisfaction. It is now the leading brand in this market. Every dealer should keep it.

TUESDAY, APRIL 21, 1874.

THE *Post* is a Democratic paper published in this city. If there was any more to say of it we should take pleasure in saying it.

THE masters are arming the slaves in Cuba, and we sincerely hope the slaves will use their arms to disarm their masters.

THE present Legislature of Virginia is said to be the most obtuse body which has assembled in that State since the war. It is also the most Democratic.

JUDGE EDMONDS, the eminent spiritualist, who died recently, left property amounting to half a million dollars in value—which proves that he was also a materialist.

A NUMBER of ex-rebel leaders are still bothering their heads about what killed the Southern Confederacy. It died of an overdose of blue pills administered by UNCLE SAM.

"IMMIGRATION is Kentucky's great need."—*Courier-Journal*.

And Bourbonism, which prevents immigration, is Kentucky's great folly.

ROCHESTER, New York, is blessed with two excellent papers. The "Current Notes" of the *Democrat* are as palatably piquant as ripe gooseberries, while the *Express* fairly coruscates with luminous "Expressions."

VENUS loses none of her attractions with age. Not only our own country, but also England, France, Germany and Russia are busily equipping astronomical expeditions to assist in the mystery of her forthcoming transit.

AT LENGTH the winter is thoroughly broken up, and there can be no excuse for longer deferring the work of cleansing the city. It is the duty of every good citizen to purify his premises, at once, of the accumulated *debris* of the past season.

THE recognition of the Cuban Republic is again urged. So far as the Cubans are concerned, most persons would not object to recognition, but inasmuch as the real end in view is to make Cuban bonds valuable that are held by political loafers, people will not be apt to grow very enthusiastic over the proposition.

THERE is now very little doubt that Congress will appropriate three million dollars in aid of the Centennial Exhibition, and the noble enterprise may be considered as all but an accomplished fact, the country virtually standing committed to the success of the undertaking. The Washington *Chronicle*, however, still opposes it.

EVERYBODY predicted that so soon as Congress should show a majority for inflation, stocks would take an upward bound and a wild era of speculation would follow. And yet it appears that stocks, instead of advancing, have in many instances actually declined, and still continue to exhibit a downward tendency. How do the alarmists account for this?

SINCE the adoption of the Massachusetts State Constitution, in 1780, there have been at least five instances in which the Lieutenant Governor of the State has succeeded to the Gubernatorial chair, by the death or resignation of the Governor. The first was in 1793, when Governor HANCOCK died, and was succeeded by Lieutenant Governor SAMUEL ADAMS, and the last is the succession of Lieutenant Governor TALBOT by the election of Governor WASHBURNE to the United States Senate.

NEW YORK CITY is threatened with another "strike." It is a very curious fact that every spring brings its inevitable strike. The very class that during a long winter are complaining that no employment is to be had, throw away the boon when offered, unless their own conditions are granted. The threatened strike will, if it occur, react with severity on the class it is claimed to benefit. The idleness of summer is a poor preparation for winter's exigencies, and the extraordinary benevolence of last season will not be repeated.

FROM time immemorial there have been depravity and decay, but there have also been integrity and advance. After all, it is perhaps doubtful whether the present age is very much worse than its predecessors. In 1782, it seems, JAMES M. VARNUM wrote to General WASHINGTON that the majority of the Rhode Island General Assembly were licentious men, destitute of education, and void of principle. Really, when one comes to think how common, for centuries, has been the cant of corruption, it seems strange that the world should have made any progress at all.

THE imports, exclusive of specie, at the port of New York, for the week ending last Saturday, amounted to $9,269,815, against $12,346,614 for the corresponding week last year. The total importations from the beginning of the year have been $130,721,356, against $145,813,489 for the corresponding period of last year. The heavy increase in the dry goods imports at New York the week before last, was more than offset by a corresponding decrease last week, the amount entered being only $1,728,635, against $3,060,909 for the week before, $3,300,999 for the corresponding week last year, and $3,063,711 in 1872.

THE movement of the cotton crop from the interior to the seaboard is nearly completed. The comparative statement for last week and the corresponding week last year shows—net receipts at all our ports last week, 39,742 bales, against 55,912 last year; total receipts to last Saturday, 3,491,917, against 3,154,974; exports for the week, 73,480, against 76,786; total exports to date, 2,232,441, against 1,950,503; stock at all our ports, 510,293, against 481,275; stock at all our interior towns, 80,062, against 89,421; at Liverpool, 800,000, against 694,000; American cotton afloat for Great Britain, 252,000, against 208,000 for last year.

REMARKING upon the strong probability that General HOWARD will be triumphantly acquitted, the Springfield *Republican* sardonically observes: "That won't replace the money, however, that slipped through the fingers of his careless subordinates." True; and the transactions and business habits of some of these officers who disbursed the funds of the Freedman's Bureau deserve the severest reprobation, but that does not make General HOWARD morally responsible for their acts, any more than General SPINNER, United States Treasurer, is morally responsible for the crimes committed in his office without his knowledge.

A PARAGRAPH is going the rounds of the press to the effect that Congressman PHILLIPS, of Kansas, the other day received a dispatch stating that his residence, valued at fifteen thousand dollars, had been destroyed by fire, but, through "great exertion, most of the library, worth ten dollars, was saved." This, of course, was intended for "smartness," but it lacks the basic element of truth. We happen to know that Col. PHILLIPS' residence was valued at only one thousand dollars—it being a very plain and unpretending frame structure. His library, however, was large and valuable, and we sincerely hoped it escaped destruction.

THE latest intelligence concerning the General Transatlantic Company's steamship, L'Amerique, will not be likely to prove very comforting to the *amour propre* of the French people, all the more for the reason that it goes far toward interpreting the recent conduct of the commander of the steamer Europe, of the same line. Both of these vessels were, it is now thoroughly apparent, abandoned by their officers and crews long before there was any necessity for doing so. No one doubts that the French are brave enough, but they are impulsive and panicky. The contrast which the steady, practical pluckiness of the commander and crew of the English steamer Spray presents to the helpless consternation of the French sailors in question, is about as sharp an antithesis as can anywhere be found.

THE Civil Rights bill, reported from the Judiciary Committee last week, is to be taken up in the Senate to-day. It will probably give rise to an extended discussion, and occupy a large portion of the week. It is a good deal less radical in character than the SUMNER Civil Rights bill. That Senator wanted private schools thrown open to colored pupils. The Senate bill forbids discrimination in the common schools and in public charitable and educational institutions supported in whole or in part by general taxation, and in cemeteries so supported. The same provision applies to inns, public conveyances, on land or water, theaters, and all places of amusement. The privileges of such places are accorded without distinction of color or previous servitude, "subject only to conditions and limitations established by law, and applicable alike to citizens of every color." The bill is preferable to the SUMNER measure, because it goes far as Congress has any right to go. The former bill, while aimed exclusively at color prejudice, logically went far beyond that, and trenched upon private rights. Should the measure pass, it will be a finality in what may perhaps be termed color legislation.

## VACCINATION AMONG THE STATESMEN.

A characteristic and very instructive debate lately took place in the German Reichstag on the subject of vaccination. Though purely a question of public health, as it might seem, the discussion of it assumed a much wider range, and became the occasion of a regular partisan conflict between the champions of antagonistic views concerning the true position or functions of the imperial government. The imperial government proposes, it appears, to establish a Bureau or, as we say, a Department of Hygiene, the chief of which, we may suppose, would be an eminent physician legally authorized to exercise direction and control in all matters pertaining to the general health, the medical profession included. A project of law establishing such a bureau has been approved by the imperial council, and a proposition for the regulation of vaccination, also approved by the council and submitted by the government, seems to have been seized upon by the centralists in the Reichstag as affording a good opportunity for the applications of their political principles. A committee of the Reichstag so altered the bill laid before that body as to make the subject of vaccination an imperial concern, instead of leaving it to the governments of the separate States. By the bill vaccination is made compulsory, and very minute directions are prescribed as to the age at which the operation must be performed and as to the conditions under which it must be repeated. While the State governments are required to make arrangements for providing the necessary lymph and for the carrying out of the law, the imperial government maintains a close supervision over the whole business. No doubt this will be the duty of the Medical or Hygiene Bureau.

This project of law met with the most earnest and even vehement opposition from all divisions of the antagonists of centralization in the Reichstag. The feature of compulsion was looked upon as especially odious, and a counter project was proposed in which it was provided that children should not be vaccinated before their fifth year, and then only with the approval of parents or guardians, and that adults should not be subjected to the operation without their own consent. This form of law was supported by numerous petitions, strongly protesting against compulsory vaccination, and in these petitions, according to a German authority, the sentiment of no insignificant portion of the people found expression. In the Reichstag it was urged that even physicians are much divided in opinion as to the effectiveness of vaccination in preventing small-pox. It seems that while some German physicians regard it as indispensable to the public health, others regard it as dangerous, and especially as a means by which the seeds of other diseases are introduced into the system. Medical members of the Reichstag boldly asserted that since the introduction of vaccination, nervous diseases have multiplied, and that in vaccinated persons several maladies take on a more dangerous type. However, medical advocates of the remedy had decidedly the better of the argument, the statistics of Wurtemberg, for example, showing that while the law compelling vaccination in that kingdom was strictly enforced, small-pox was almost unknown, whereas in consequence of the neglect of the law, the disease had greatly increased.

We may add that British statistics furnish overwhelming evidence to the same effect. Indeed, the general efficacy of the preventive has been so completely established in some other countries that the scepticism of some members of the Reichstag is rather surprising. Possibly prejudice has somewhat to do with it. But a more respectable influence was no doubt active, namely, the growing spirit of personal independence and opposition to the extension of imperial power. The execution of the proposed law would involve a degree of official intrusion into private affairs, an intermeddling with the domestic relations of the subject, which an increasing number of Germans regard with impatience. An opponent of the law urged with considerable force that, if it were adopted, common fairness demanded that all the great people, from the Emperor and the confederate princes down to the members of the imperial council and of the Parliament should submit to the operation in order to satisfy the people that vaccination is a good thing. Another fairly hit a blot when he objected to a law which compelled a poor laborer and his children to endure a process offensive to their feelings, from which a rich man could obtain exemption by the payment of money.

But the objections, good, bad and indifferent urged against the law failed to convince its supporters. To it was appended a resolution sanctioning or recommending the establishment of the proposed Imperial Bureau of Hygiene, as an agency for the administration of the law, and both this resolution and the proposition in favor of compulsory vaccination were passed by the Reichstag, against the united opposition of Social Democrats, Ultramontanes, Radicals, Poles and deputies from Elsass-Lothringen. Doubtless the Department of Health thus approved will be promptly organized by the government, and the world may reasonably watch the experiment with some interest and curiosity.

THE dates at which the Republican nominating conventions have been held, in Allegheny county, for the past nine years, are as follows: 1865, June 6th; 1866, May 29th; 1867, September 3d; 1868, June 2d; 1869, June 1st; 1870, August 31st; 1871, June 6th; 1872, June 28th; 1873, June 3d. It will thus be seen that, during the period stated, there has been but one convention held earlier than June, and that was only a few days in advance of the usual time, which has been about the first week in June. When there are good reasons shown for postponing the nominations to a later day, such as exist now, the conventions have been held as late as September. This year the election takes place in November, or one month later than under the old Constitution; so that, even if the party custom is to be followed, without regard to party interests, the conventions should not be called earlier than the middle of July. The first week in September would be early enough, and would give a campaign of fully two months.

THE lessons of our war seem to have sunk deeper into the minds of European tacticians than all the blood and thunder of the Franco-Prussian struggle. Colonel CHESNEY, an eminent English officer, has just delivered a lecture in which he advocated the superiority of a small body of highly-trained soldiers, able to fight equally well on foot and on horseback, acquainted with the elements of engineering and artillery. With 30,000 such troops he declared that he could at any moment push across Europe and paralyze the action of 300,000 of the ordinary type. His ideal army is evidently the same as General SHERIDAN'S. There is no doubt that if national prejudice could be overcome, and the stigma removed from innovation, an enormous boon would be conferred upon suffering nations by the substitution of a small army of *elite* for the cumbersome forces which now drain town and country of the best of their youth, and send them home unable or unwilling to settle to fixed and profitable employment.

THE Samana Bay Company propose, it seems, to appeal to the United States government to reinstate them in the possession of their leasehold, from which they have been ousted by the insurgent government. The company allege that the time for which they have paid rent is not yet expired, nor have they in any instance failed to comply with any of the obligations imposed upon them by their contract. This may be so, but that is no reason why the government should interfere in their behalf. They made a bargain, and took their risk, the same as other speculators are in the habit of doing. Moreover, by the terms of their negotiations, all "misunderstandings" between them and the Dominican government are "to be referred either to arbitration or to some European power to determine the question at issue." The government and the people of the United States, therefore, have nothing whatever to do with the matter.

### Hardening Iron.

Lieutenant Colonel Caron gives the following experiment as illustrating a "New Mode of Hardening Steel and Regeneration of Iron," in an article on iron. "A bar of Berry iron, three centimeters in diameter, easy to break, without a crack, cleft or flaw, was burned—that is, warmed in such a manner that, pressed in a screw vice, it could be broken without bending. The fracture was strewn with brilliant facets of many thousand squares. A boiling liquid, strongly impregnated with ordinary salt, was prepared; a piece of the burned iron, heated red hot, was plunged in this liquid, during the time necessary to bring the metals to the temperature of the bath (about 110 degrees). It immediately produced a rather curious phenomenon; directly it was plunged in the salt solution, the red metal was covered with white salt, which detached it from the water, and certainly contributed to diminish its cooling. The piece of iron thus hardened was capable of being bent back upon itself, as the bar had been before being burnt. Pure water, boiling, can be employed as well, but its effects are less marked." Colonel Caron recommends the dipping of all forgings in hot salt water, as it can do no harm and may do much good.

## CREMATION.

### An Actual Case in Philadelphia—A Physician Burns the Body of His Only Son—The Experiment Entirely Successful.

From the Philadelphia *Press* of Sunday we obtain the particulars of the first trial, in this country, of the plan of disposing of dead bodies by cremation, or burning, an actual case having occurred in that city on Friday, 17th inst. The body burned was that of George Opdyke, son of Dr. Francis Opdyke, of No. 1949 North Fourth street, whose death occurred on the 15th inst., he being a young man of twenty-one years of age. The Doctor sent for a *Press* reporter, and gave to him the details of the experiment. The account states that the Doctor favors cremation in preference to burial on sanitary and other grounds, characterizing burial as barbarous and wasteful. The reporter says:

The Opdyke family are from Heidelberg, where the Doctor was educated. He came to this country and city when quite a young man, and for a number of years resided in one of the old-fashioned houses on South Fourth street. He was married to an American lady, who died shortly after the birth of her only child, George. The Doctor, much against his will, and owing to circumstances of a strictly private nature, was compelled to leave his old home, and move further up town to his present residence. Even at the time of his wife's death, now nearly twenty years ago, it was his desire, and her's too, for she had learned to accept his theories, that her body be burned; but it was feared to attempt it then, in the face of public opinion, and her body was buried after the usual fashion. The house in which the Doctor now resides and which he has occupied but a short time, was recently built, and was purchased by him before it was finished. Though having nearly all the modern improvements the Doctor insisted on several ideas of his own, and among them a peculiar construction of the main chimney. This he informed us was with a view to what has occurred. Perhaps peculiar is the wrong word, for the chimney is much like those in use in numerous old-fashioned houses. In the cellar it is supported by an open arch, into which the end of the chimney opens; the opening being generally closed with a tin throat piece. It was here that the burning of the body of his son took place last Friday. George Opdyke was twenty-one years of age, educated at the University of Pennsylvania, and, and as his father has said, much like him. His demise may be called sudden, though he had long been suffering from what a *post mortem* showed to be heart disease. Neither the father nor son suspected the truth until after the latter's death. As we have hinted, the Doctor has long been a believer in cremation, and is thoroughly conversant with the subject. Since the matter has been taken up by the newspapers he has talked much with his son about it, and a month ago they bound themselves by solemn compact, that the survivor of the two would see that the body of the other was destroyed by fire. In the natural course of events it would have been the Doctor's remains which would have undergone this operation, but fate decided otherwise.

George died on Wednesday morning. Orders were immediately sent as follows: To a boiler-maker for a boiler-like contrivance six feet and a half long by two feet six inches in diameter, closed and riveted at both ends, and opening in the middle on hinges. It was to be made of the best boiler iron. To a bricklayer to construct a furnace in the cellar, closing up with it the large opening beneath the chimney, and making a floor of brick. Half way in the furnace and half way in the chimney on the brick floor were erected two little brick towers some six feet apart, upon which the boiler, or coffin, flat upon one side, was to rest. For two loads of yellow resinous pine. The orders were all filled, and the work done by Thursday night, and on Friday morning at 6 A. M. the ceremonies commenced. The body, perfectly naked, was placed within the iron coffin, which was riveted and screwed together, put upon the little towers, which rose about a foot above the floor, the tin throat piece taken from the chimney, wood piled under, about and all around the iron coffin and set on fire. The cellar windows were opened for better draught. It will, of course, be understood that, to prevent the boiler bursting, holes were pierced for the escape of the gases all along the upper sides. It was kept at a white heat until 4 o'clock P. M., when they ceased firing up.

A cord and a half of wood was used. It was at first thought that the coffin would be opened about midnight but it was afterwards determined to allow it to remain as it was until daylight. It was then drawn forth. By the heat it had become much warped, and when they attempted to open it they found the thread of the screws which had been used in closing was entirely melted and it was necessary to cut it with a cold chisel. When opened not a vestige of the body remained—nothing but about a quart of whitish gray ashes, some little of which was spilled upon the cellar floor; for, of course, the hinges would not work, and they were compelled to cut the coffin entirely apart. These ashes were collected and are now in an urn on the mantel in the Doctor's study. There is not a particle of bone among them, and the Doctor declares that, when the ancients burnt their dead on wood-piles and collected the ashes, they took up with them many pieces of bone; for, he says, nearly all the old burial urns opened, contain small bits of bone. During the burning, which the Doctor himself superintended, and which was attended by several prominent physicians and other gentlemen, there was little if any unpleasant odor in the cellar. It was about 7 A. M. that the ashes were deposited in the urn. When we called upon the Doctor he showed us about a teaspoonful of these ashes. They are to the touch much like pulverized sugar, and perfectly odorless. The vase is shaped like a common flower vase, corked and sealed with red sealing-wax, and is about eighteen inches high. Inscribed upon it is the date of the birth and death of George Opdyke. It is perfectly white. Of course these urns, when cremation becomes general, as the Doctor declares it must and will, can be of any size and shape and as expensive as desired. In answer to our inquiry why they did not cool the coffin by throwing water upon it, the Doctor said there was no necessity for that, and if they had, the ashes, he feared, would have turned to paste. The experiment was rather expensive, much more so than burning will be when better preparations are made, owing to the general acceptance of cremation. This is about the cost:

| | |
|---|---|
| The boiler | $50 00 |
| The furnace | 25 00 |
| The urn | 2 50 |
| Two cords wood | 16 00 |
| | $93 50 |

It will be remembered but one cord and a half of the wood was used. Even this amount is much less than it would have cost to have buried George after the regulation mode. It is well to add that before attempting the burning the Coroner and other of the authorities were consulted, and, no reasonable objection could be made, though the Doctor was advised against it. In parting, he said that his only regret was that he did not have his wife with George on the mantelpiece. Religiously the Doctor is a sceptic, as was his son and wife, which accounts for the omission of religious ceremonies. Of course, this is not the case with all, or perhaps even the majority, who favor cremation, and there is no reason why such ceremonies should not precede the burning. The time occupied in the burning was much longer than was necessary, and it is held, with the proper apparatus, bodies can be burned in less than an hour.

### The Legislative Dead-Lock.

[From the Harrisburg Telegraph, 18th.]

It has been suggested to us that it looks now as if the Democratic members of the Senate desire to sell themselves for filthy lucre, fat offices, or something of the kind. The words "FOR SALE" have been conspicuously displayed. They say to the Republican Senators in plain terms, "If you give us districts from which *we, the Democrats*, can be returned to the Senate, we will vote for such nominations as may be made by Governor Hartranft for President and Law Judges of the State."

We would direct the attention of our Democratic friends to the 31st section of article 3, in the Constitution, which says: "*The offense of corrupt solicitation of members of the General Assembly, or of public officers of the State*, or of any municipal division thereof, and any occupation or practice of *solicitation* of such members or officers, to influence their *official action*, shall be defined by law and shall be punished by fine and imprisonment."

The Democrats have plainly formed a conspiracy in caucus to compel certain other members to give them such an Apportionment bill as they desire—in other words, "*to influence their official action.*" This is the record of Democratic Senators who refuse to vote on the confirmation of law and president judges.

We would now call the attention of the Republican Senators to the 30th section of the same article in the Constitution, which reads:

"Any person who shall, directly or indirectly, offer, give or promise any money *or thing of value*, testimonial, privilege or *personal advantage*, to any executive or judicial officer, or member of the *General Assembly, to influence him in the performance of any of his public or official duties, shall be guilty of bribery*, and be punished in such manner as shall be provided by law."

The Republican Senators have fair notice in the above section that if they yield one iota from their well-known purpose, and reverse their votes on the Apportionment bill, which are of record, they will be guilty of bribing their fellow Senators.

Attorney General Dimmick should at once have his attention called to the fact that the Democratic Senators have offered to sell themselves, and take such steps as he may deem most advisable.

PITTSBURGH COMMERCIAL.—This is one of our old and welcome exchanges. It is edited with ability, is full of enterprise and push, and will always be found up to the times. We notice that it has recently donned a new dress, and its well printed pages attract and please the eye, while its contents embrace a larger amount of varied reading matter—news, politics, science, manufacturing, &c.—than is found in nine-tenths of the daily papers published in the United States. If you want a live daily from the Smoky City, take the Pittsburgh COMMERCIAL.

[Bradford Reporter.]

The Pittsburgh COMMERCIAL appears in a dress of new type, and in appearance is equal to any paper in the State. It is one of the most readable of our exchanges, bright, lively, and thoroughly sound upon all the topics of the day. It is edited by Russell Errett, Chairman of the Republican State Committee, whose talents and industry have already made the COMMERCIAL the leading Republican paper of the Commonwealth.

[Harrisburg Telegraph.]

One of the best evidences of the growth of intelligence, the advance of civilization and the prosperity of the country is the better support of the press, of which we have every day additional evidence. The latest that has come under our observation is the improved appearance of the Pittsburgh COMMERCIAL, dressed in a new suit and looking bright as a new pin. It shows that the COMMERCIAL is liberally supported, as it deserves to be.

[Minersville Republican.]

The Pittsburgh COMMERCIAL, the staunch old wheel-horse of Republicanism in Pennsylvania, has just put on a "new harness" for the State campaign, which is about to open, and looks as neat and trim as could be wished by any of its many thousands of readers. The COMMERCIAL has no superior in Pennsylvania, and we hope to see its circulation immensely increased during the coming summer.

[Lewistown Gazette.]

The Pittsburgh COMMERCIAL, one of the best dailies published in the United States, has recently donned a new dress. The enterprise displayed by the proprietors of this live journal deserves the eminent success they are achieving. The COMMERCIAL arrives here several hours in advance of the Philadelphia dailies, and is on this account the most valuable paper our citizens can procure.

[Greensburg Tribune and Herald.]

The Pittsburgh COMMERCIAL comes to us in a bran new dress. It has put on its spring attire and is looking very healthful and enterprising. The COMMERCIAL is one of the foremost papers in the country. It is edited with great care and ability. Its columns are filled with the latest news. We are glad to see it prospering.

[Wert County (W. Va.) Monitor.]

The Pittsburgh COMMERCIAL appeared on our table a few days ago in a "brand new" outfit, and looking as bright and beautiful as the orb of day on a May morning. It is a first-class *newspaper*, and should be in every household. Send for a specimen copy.

### Our Changing Bodies.

Our bodies are constantly changing. The dead matter passes off by the bowels and the pores, and digestion and assimilation supply fresh material. This material cannot be pure, and consequently the body cannot be healthy unless the stomach and the secretive organs perform their allotted tasks thoroughly and regularly. That they may do so keep them in good working order with that most efficient of all invigorating, regulating and purifying preparations, Hostetter's Stomach Bitters. If you wish your blood to be really the "stream of life," to have your bones clothed with sound flesh, to be exempt from nervousness and debility, to be clear-headed and cheerful; in short, to possess that choicest of Heaven's blessings, a sound mind in a sound body, resort to the great vegetable restorative whenever you feel languid, or suffer from indigestion, or are bilious or low spirited, or suffering from any derangement of the animal functions. The relief is immediate, and full restoration certain.

## FINANCE AND TRADE.

MONDAY EVENING, April 20, 1874.

The local money market has no change vorthy of notice. Money continues easy nd demand moderate on the part of good orrowers. The House Finance bill will robably come up for consideration in the enate on Tuesday, as Senator Sherman nnounces he will report it without delay. t is expected by those who favor more anking circulation that it can be passed in ie Senate, as the New York and Pittsurgh banks will come to the support of the ill because it releases the reserves on cirulation, except five per cent. to be kept in ie Treasury. A leading inflationist is reorted as stating that the national banks hould be released from the obligation to eep a reserve on their circulation, except to the one-fourth of the gold interest rovided for in the Senate bill.

The statement that the third section of ie bill which draws the reserves of the untry banks from the redemption gencies to their own vaults is objectionble to New York city financial interests as tended to strengthen, rather than otherise, the feeling on that subject.

—The manner in which Congress has ubbed all railroad, steamship subsidy d bank interests this session, is a sharp mmentary on the changed feeling which s taken possession of that body; the arge cannot now be made that these inrests are all powerful in controlling legision.

-The Senate Finance Committee have deled to report adversely on the House bill oposing to entirely abolish the charge for nage of gold and to extend the bullion fund d coin certificate system to all the mints and ay offices of the United States; the committaking the ground that the government ould not transport bullion any more than it ould transport wheat or other commodities the benefit of private individuals. The nmittee is also opposed to diminishing the enues $60,000 or $80,000 a year, as would be olved in the abolition of the present charge one per cent. for converting refined gold o coin.

-The Senate Committee on Commerce have isidered the joint resolution of the Legislae of California against any grant of addinal subsidy to the Pacific Mail Steamship npany, and agreed to report and recommend passage of a bill declaring that said Pacific il Steamship Company, by failure to comwith the conditions on which the addial subsidy of $500,000 per annum was grantto commence last October, has forfeited its it to the same, and is entitled only to the ,000 subsidy per annum previously granted a monthly mail service between San Frano and China and Japan. The bill will simdeclare, as a matter of law, the forfeiture ady recognized as a fact.

-The following is a detailed statement he condition of the New York banks:

### PITTSBURGH OIL TRADE.

OFFICE OF THE PITTSBURGH COMMERCIAL,
TUESDAY, April 21, 1874.

REMARKS—The crude oil market since our last has undergone no material change, at least so far as our market is concerned. In the oil regions a better feeling prevails, and prices have slightly advanced, as compared with Saturday's prices. Figures are yet low, and barely cover the cost of production. An advance of ten to twenty cents per barrel would be very acceptable to a large class of producers in the oil regions; what the refiners would have to say is altogether another matter.

CRUDE.

The market remains quiet. The following sales were reported at

PARKER'S:

### ALLEGHENY LIVE STOCK MARKET.

OFFICE OF THE PITTSBURGH COMMERCIAL,
MONDAY, April 20, 1874.

**Cattle.**

The arrivals of cattle by the different railroads centering at the Union Yards were fifty-two cars, of which forty-eight came from Chicago and the balance from Ohio. In addition to the above, there were a few head of stock driven in from the adjoining country. The Ohio stock was mixed, part of the cars being composed of hogs and sheep, which, with four loads of stockers not offered, would make the actual offerings forty-six cars, or, counting eighteen to the car, eighteen hundred and twenty-eight head. The quality of the cattle on sale this week was good, being above the average of stock usually offered here. Among the cattle were several head of very fine bulls, the finest that has been offered here for some time. Trade opened up at 6:30 o'clock, at which time drovers commenced to yard their stock, but before operations of the day fairly set in a heavy rain commenced to fall, which continued for half an hour and during this time business was suspened. At about eight o'clock trade became more animated but still it could not be called active; in fact it ruled slow from the opening to the close. At eleven o'clock the market was considered over, but there was some tail ends unsold. There was several country butchers in attendance who purchased freely, otherwise more cattle would have been left unsold than was. Cattle ruled from ⅛ to ¼c lower on all grades, excepting fancy, which sold at about the same figures as last week. The market was considered satisfactory to sellers, notwithstanding the decline, as stock was lower at Chicago.

**Stockers.**

The arrivals of stock cattle was but four loads bought on order for Washington county farmers. There was some inquiry for this grade of stock but none was on sale.

PRICES.

Following are the rates current for the different grades of cattle:

Fancy steers $7 00 to $7 25; extra steers $6 75 to $6 85; good 1,200 ℔s steers $6 50 to $6 60; fair 1,100 ℔s steers $6 00 to $6 25; fair 1,000 ℔s steers $5 75 to $5 85; common $5 25 to $5 50; bulls $4 75 to $5 50; no stockers on sale; fresh cows $30 00 to $60 00; veal calves $5 50 to $6 25.

**Hogs.**

The run of hogs this week light, and principally all in the hands of regular dealers. Head & Trimble made sale of 50 head light hogs to James Hunter at $6 00 per hundred ℔s. Trade ruled moderately active and prices higher. Some sales were made for choice tops at $6 85a7 40, but the majority of them at figures ranging from $6 50 to $6 75. Trade closed with most of the offerings sold.

**Fresh Cows.**

The number of fresh cows on sale was smaller than for some time past. There was considerable inquiry for prime milkers, and some sales were made as high as $60 00. All the good stock changed hands, while there were a few common cows left unsold.

**Calves.**

There was a fair number of calves on the market to-day, and with a good demand for them, all changed hands at a range of $5 50 to $6 25.

**Sheep.**

The number of sheep and lambs on sale to-day, were about 300 head. The market while active and fair was not so good as last week, prices being a shade lower on all grades. R. McCasslin had on sale some extra lambs averaging 115 ℔s, for which he received 10c per ℔. H. H. Brook wholesaled 50 head fair Ohio sheep mixed wool, averaging about 100 ℔s, at $8 25 per hundred ℔s. Market closed with all the stock sold. Range of prices from $6 50 to $9 50 according to weight, quality, &c.

### WOOL MARKETS.

BOSTON.

April 18.—The wool market has been quiet since our last report, and there is little of interest to record. The sales of fine fleece wools have been confined almost entirely to small lots, and there has been hardly enough doing in these styles to establish quotations. There is a fair degree of firmness in the market, and we hear of no sales at any material concession. It would be difficult, however, to move any large lines, except by yielding something from recent quotations. Manufacturers find little improvement in the demand for goods, and some of those who are making low grades of cloths are stopping a part of their machinery. Those who are turning out fine work are having a fair demand for their goods at moderate prices. There seems to be no desire on the part of even dealers to advance prices with the new clip approaching, and as only a few of the dealers have heavy stocks the tendency is to keep along about as now for the present.

It will be of interest to our readers in comparing the stocks of foreign wool in this country this year with those last year, to note the falling off. We are indebted to George F. Moore & Co., of this city, for the following figures, in advance from their forthcoming circular: Amount of foreign wool in bonded warehouses in Boston, April 1, 1874, 2,820,321 ℔s against 10,546,877 ℔s at the same time in 1873. The amount of foreign wool in bonded warehouses in New York, April 1, 1874, was 3,954,469 ℔s against 16,954,856 ℔s at the same date last year, the aggregate decrease of foreign wool at these two ports being 20,726,944 ℔s. There is considerable South American wool on the way to Boston and New York, some of it near by.

The next Liverpool sales opens on the 28th and is looked for with considerable interest. Should the closing prices of the last sale be maintained, there would probably be no wool bought on American account, as that purchased at the last sale paid too small a profit to induse a repetition of the venture in the face of the new crop. Late mail advices are to the effect that English dealers are making contracts for wool in advance of the sale, which indicates a belief that prices are to be higher. —*Commercial Bulletin.*

### Cincinnati Market.

CINCINNATI, April 20.—Cotton firmer at 17c. Flour and oats quiet and unchanged. Wheat firm at $1 43a1 45. Corn steady at 68a70c. Rye firm at $1 06. Barley firm at $1 85. Pork nominally $17 00. STOCK EXCHANGE—ANOTHER FAILURE—MARKED REDUCTION IN STOCK SHARES.

This has been an eventful day in Wall street. It opened with the failure of Messrs. Capron & Merriam, of No. 9 Wall street, and the Columbus, Chicago and Indiana Central pool, and this was followed by events which precipitated a panic on the Stock Exchange. The failures above noticed were followed by various rumors, all of which tended to disturb confidence and unsettle matters generally. At one time it was currently reported that a Philadelphia railroad official was unable to meet his notes, but inquiry at proper sources failed to substantiate the rumor. This was followed by a report that President Grant would sign the Senate Currency bill and that Comptroller Knox would immediately issue instructions to national banks requiring them to call home their legal reserves now held in redemption cities in excess of the amount required under the new law. Then came a report that a railroad and steamship war was likely to result from the inability of the Pacific Mail, Panama and Union Pacific to agree upon some amicable freight arrangement, and that the Central Pacific road was about consummating an agreement with an English company to put on an opposition line of steamers between San Francisco, Japan and China. All the facts and rumors mentioned above caused an enormous pressure of sales on the Stock Exchange, and prices declined from 1 to 10⅝ per cent. Columbus, Chicago and Indiana Central led the downward movement and declined from 30⅞ to 20; Pacific Mail was the next weakest stock, and fell from 43 to 38¼; then came Panama, which dropped from 105 to 101; Hannibal and St. Joseph was next, and declined from 30⅜ to 26¼ for common, and from 35 to 33 for preferred; Wabash was also very weak, and fell off from 44⅞ to 41¼; Northwest and St. Paul common stocks were freely pressed for sale in consequence of the prospect of new railroad legislation West being put into operation, materially reducing the present rates of freight; the former declined from 50⅞ to 47⅞, and the latter from 40⅛ to 38⅜; Western Union dropped from 74¼ to 71⅞; Lake Shore from 75⅛ to 73⅞; New York Central from 98 to 96⅞; Erie from 37⅞ to 36; Rock Island from 99⅞ to 97⅞; Ohios from 29⅛ to 26⅞; and Union Pacific from 34⅞ to 33. At one time during the afternoon there was a rally of ¼ to 2½ per cent., but at the final close the market was heavy and lower again on a sudden and sharp advance in money from 4 per cent. currency to 7 per cent. gold, and some vague rumors that several banks were in trouble. The heavy decline in stocks to-day, disturbed seriously the margins of the weaker class of speculators, and large sales for their account helped to depress matters on Stock Exchange. Ever since the September panic, Capron & Merriam have been carrying large amounts of Columbus, Chicago and Indiana Central stocks, stated as high as 24,000 shares; for a day or two back rumors have been in circulation to effect that about 20,000 of these shares had been hypothecated at the German American bank, and that in consequence of a change of management in the said institution the loan had been called and that Capron & Merriam were not able to respond. Under the pressure of heavy sales the price declined from 30⅞ to 20, and in three hours from the commencement of business 50,000 shares changed hands. A large number of creditors went to the office of the firm seeking a settlement, and after considerable talk as to the manner of the same, a prominent broker who had been carrying a large amount of stock for the firm, offered to either carry the stock for them at 20 or buy the stock at 25, Capron & Merriam to pay difference due. This proposition was acquiesced in by a number of the creditors present, and a paper was immediately drawn up and signed by most of the interested parties present, agreeing to this mode of settlement; but some creditors who had carried margins down to 20, refused to sign, and then commenced the selling out of some stock; under the rule 1,500 shares were thus disposed of. Mr. Capron says the misfortune was brought about by the treachery of those he supposed his friends, for whom he had agreed to carry large amounts of the stock for sixty and ninety days. When the market began to break this morning the persons for whom he was carrying this stock went into the market without any notice to him whatever, and sold every share they held. Most creditors are willing to make settlement on favorable terms, and the firm expect to be on their feet again soon. Messrs. Capron & Merriam are well known on the street, and much sympathy is expressed for them in their temporary misfortune. The firm sent the following letter to the Exchange:

NEW YORK, April 20, 1874.

*H. G. Chapman, President:*

We regret to be obliged to announce that we are unable to meet our contracts.

Very respectfully,
CAPRON & MERRIAM.

THE Lawrence Iron Works resumed operations yesterday; they have been shut up since last October.

THE Granite State, Capt. Kerr, is en route for this city. She will leave on her return trip on Friday for Portsmouth.

THE great bridge at St. Louis is fast winning laurels as an obstruction to commerce and a smasher of river craft.

PINE street wharf, Delaware, is to be sold at auction at an early day. A bid of less than $8,000 will not be accepted.

THE splendid sidewheeler Juniata, Capt. C. L. Brennan, is announced for Cincinnati and way points on Wednesday.

IT IS said the towboat Grand Lake No. 2 sets a better table, and the boys live better, than on any first-class passenger boat that floats.

AT CINCINNATI on Saturday the flag on the public landing was at half-mast in respect to the memory of engineer James F. Shannon.

CAPTAIN JOHN BURK continues in command of the Henry C. Yaeger for the present, Captain Van Hook preferring to rest awhile longer.

THE towboat J. S. Mercer sunk a coalboat below Glass House, containing 22,000 bushels of coal. The coal will be saved when the water falls.

THE De Smet has met with another accident. As she was leaving St. Louis last trip she broke the shaft of her doctor, and was compelled to give up her trip.

THE brig Ocean Bell made the run from Cardenas to the Breakwater in five days, and to Chester in six and a half days, where she is now discharging.

CAPTAIN CHARLES DUNNING has sold his entire interest in the Henderson (Ky.) ferry and his steam ferryboat to R. B. Carson, of Vanderburgh county, Indiana.

THE steamer Natchez had her chimneys carried away by a tornado, Wednesday evening, near Natchez Island. The upper works of the boat were badly damaged.

THE Rock Island *Union* says: The Northern Line charges for freight to St Louis: grain 12¾ cents per cental; flour, 35 cents per barrel; pork, 37½ cents per barrel.

THE punctual steamer Carrie Brooks, Capt. Darlington, takes her departure this day, 4 P. M., for Zanesville and intermediate ports. The clerks are Messrs. Buchanan and Pitman.

THE St. Louis *Globe* says that Captain Rees Dugan does not think that the sign is just exactly in the right place to induce him to bring his boat around from Cincinnati as yet.

THE Esperanza left St. Louis with 300 tons pig iron, 100 tons blooms, 150 tons fire clay and brick, and 100 tons Apula freight—a fair send-off for dull times and a played trade.

THE Directors of the Carondelet Marine Railway and Dock Company have elected John A. Scudder President of the company to fill the vacancy occasioned by the death of John S. McCune.

THE towboats arrived since our last report were: Whale, Bengal Tiger, Joe Walton, Samson No. 2, Tom Dodworth, My Choice, Enterprise, George Lysle; others were expected last night.

FRANK STEWART, of this city, who was hurt by the Sam Hale explosion, will be out in a few days, and by the time his steamer arrives at Memphis, from New Orleans, he will be ready to resume work again.

THE first-class passenger packet Andes, Captain Muhleman, takes her departure from Wheeling this day for Cincinnati, on the arrival of the 1:28 P. M. train from this city. Passengers will bear this in mind.

ON HER recent trip up Red river, the Maria Louise sunk a barge of ice at Wilson's Landing, twenty-five miles below Alexandria, and, owing to the exceedingly strong current in the river, the other barge had to be left at Alexandria.

THE famous "cigar boat" Trident, which was sunk about two miles below Burlington last fall, and has been lying there ever since, was raised and brought to Burlington on Monday. Machinery will be placed in her, and she will go South. She will run, it is said, twenty miles per hour.

THE following shows the advantage of the Cincinnti bridge. The *Enquirer* says: The Ben Franklin does not come to the city wharf this trip on account of the high water. She is receiving at the foot of Vine street, and leaves at 5 P. M. for lower Ohio and Memphis.

THE steamer Esperanza, Captain J. P. Dunlavey, is *en route* for this city. Among her cargo is the following: 300 tons pig iron, 150 do fire clay, 49 do shipstuff, 50 do blooms, 12 tons iron in bars, etc.; some machinery off the Western for Evans, Dallas & Gilmore, 600 bbls flour, etc.

FROM 1855 to 1874, inclusive, the Mississippi has opened above Lake Pepin on the following dates: April 9, April 9, April 20, March 20, March 25, March 18, April 2, March 27, March 20, March 24, April 2, April 12, April 15, March 25, April 8, April 4, March 29, April 8, April 3, April 10.

THE vacancy of thought produced on the average mind by a steamboat explosion was well set forth in the frantic exclamations of a man, who, at the time of the Oliver Ellsworth disaster, rushed through the streets of New Orleans crying the "Eliver Ollsworth has biled her buster."

THE St. Louis *Republican* says: The Tom Jasper has made the experimental trip to Cincinnati and return, and though this enterprise in river communication with that city has not proven as successful as was hoped, yet the management will continue it further before despairing. The Tom Jasper for Cincinnati Friday again.

GOOD FOR CANALBOATS.—It will be gratifying to owners of canal boats to know that an act has just passed Congress directly exempting such boats from paying license fees, so that in the future they will be able to navigate on waters without being subject to the risk of seizure for not having taken out licenses under the United States law.

SORRY FOR AUNTY.—The St. Louis papers report the sinking of the steamer Aunt Betsy and two barges at Red Rock, in seven feet of water. No cause, except leakage, is given for the accident. The Aunt Betsy was owned by J. C. Smith, and valued at $8,000. The first arrival of the season at St. Paul was the G. B. Knapp, from Prescott. She left on Tuesday to raise the sunken boat.

CHAS. BOWEN, of Washington county, Ohio was last week found dead in his bed. He was about sixty-six years old, and was one of the wealthiest and best known men on the Muskingum river. One of the best Muskingum river packets ever built was named after him, and after wearing herself out as a passenger packet was used as a towboat on the Ohio, and her machinery is now doing duty on the Charley Bowen No. 2.

EUROPE AND AMERICA.—It is noted as a curious coincidence that two steamers of the same line should be cast away at about the same time, bearing the names of Europe and America. In ancient days the augurs would have presaged therefrom some terrible calamity as about to befall the two continents, if the geographical knowledge of the time had been liberal enough to include America. As it is, it is simply what we have said it is—a curious coincidence.

THE Vicksburg *Herald* says: The Natchez made the run from Bayou Sara to New Orleans on her last trip down in a little over nine hours with 115 pounds of steam, making two landings. So much for the patent steam condenser.

The Natchez picked up five deer in the river yesterday. They were swimming from the Mississippi to the Louisiana shore, near the Hardscapper landing, where she sent out a yawl and captured them one by one.

THE steamer Lady Lee was sold yesterday by the Lady Lee Transportation Company to the St. Louis and Illinois Packet Company. The Lady Lee is a handsome passenger steamer and is quite fast. She was built at Pittsburgh, April, 1871. Measurement, tonnage 294; carries 600 tons. Length on deck 177 feet, breadth 36 feet, depth 5 feet, floor 34 feet, and drew light 27 inches. Engines new; three boilers 24 feet long, 40 inches diameter, two flues; cylinders 6 feet stroke, 16 in. diameter; water wheel 19 feet diameter; buckets 26 feet long. She was built for Carter & Conn, T. W. Rea, and Henry Dohrman, and cost $40,000.—*Saturday's St. Louis Journal.*

A GOOD MOVE IN CINCINNATI.—The *Times* says: In boat stores, pilot's rooms, and other prominent places this morning, we noticed a petition to Congress headed, "To captains, pilots, mates, and engineers," and asking for signatures among the fraternity. The petition asks for a repeal of the present law regarding the charge of $10 for licenses, and substituting the law which was in force before the war, in which a charge of five dollars for the first license was made, and one dollar for renewal. It is a fair thing to ask of the government, now that wages generally have been reduced. Ten dollars per year is a round tax on a steamboat officer, and the relief they seek may be considered just.

THE following towboats have taken their departure:

FOR CINCINNATI.

| Towboats. | Coalboats. | Barges, &c. | Bushels. |
|---|---|---|---|
| Jas. H. Blackmore | 2 | 4 and 2 f. b. | 112,000 |

FOR LOUISVILLE.

| Towboats. | Coalboats. | Barges, &c. | Bushels. |
|---|---|---|---|
| Lioness No. 2 | — | 10 and 1 f. b. | 155,000 |
| Lioness No. 2 | — | 1 coke | 28,000 |
| Jas. Gilmore | — | 5 | 60,000 |
| Jas. Gilmore | — | 2 coke | 40,000 |
| | 18 | | 283,000 |

Others will follow as soon as they can be got ready.

### The Conspiracy Case.

John Ross, against whom a new charge for conspiracy has been made, before Alderman Hager, has waived a hearing and entered bail for trial. Grier, in police parlance, is "still at large."

### Inauguration Concert.

The third and last of the series of concerts for the inauguration of the new grand organ of the Pittsburgh Female College will begin this evening, in the College chapel. The programme embraces choice selections, and those holding invitations should not neglect the opportunity to enjoy the trial.

### Pocketbook Lost.

A widow lady who attended a meeting at the rooms of the Temperance Alliance, yesterday afternoon, lost her pocketbook, which contained ten dollars in notes, a ten cent scrip and a penny, besides some small patterns and scraps of paper. The lady can ill afford the loss, and if the property fell into honest hands, and is left at this office, it will be restored to her. If, as is most likely, a pickpocket got it, it will not be returned.

### Prof. Langley's Lecture.

The season is too far advanced for us to hope for a prolongation of the too brief course of University Scientific lectures, but we hope that the applications of the value of such means of instruction, as shown this evening, will encourage the lecturer, the University and its friends to enter more largely into this important field. Our citizens do not, perhaps, realize the benefits that they can command from the presence of a University among them that seeks something better and higher than crowded club rooms and imposing structures.

### Trial of the "A. H. Gross."

The steam fire engine "A. H. Gross," recently received from the Amoskeag Manufacturing Company, was yesterday put on trial by the Eagle Company, under direction of Chief Engineer White. Steam was raised within five minutes, and the engine worked to the great satisfaction of all. It will be placed in charge of the "Eagle boys," while the engine they now possess, the "Niagara," is being repaired. The A. H. Gross, which is rebuilt from the "Relief," and as good as new, is intended, we believe, for the Thirty-seventh ward, when water is supplied.

### A Boy Attacked by a Lion.

A vast crowd of men and boys, yesterday morning, assembled at the old Robinson grounds, Allegheny, to witness the arrival of the circus. James Foalds, a boy about fourteen years of age, was pushed by the crowd against a cage containing a lion. Instantly, the animal seized the boy by the right arm, and severely lacerated the flesh before the lad could be rescued from his perilous position. The boy's wounds were dressed by Dr. Hussleton, after which he was removed to his home on James street. His injuries are severe, but are not considered dangerous.

### Wills Probated.

The will of Thomas M. Bakewell was probated yesterday. The property is bequeathed to his wife, during her lifetime, and at her death to go to the daughters Lucy and Annie—Elizabeth and Martha having been previously provided for. Benj. P. and Wm. Bakewell are the executors named.

Baldwin Gray, of Sewickly, leaves to each of five children, the sum of one dollar. The estate goes to his wife, who is sole executrix.

Isabella Reel leaves a farm in Ross township, and a house and lot in Perrysville, to her son, Wm. Valentine Reel. Stephen and Alex Watson are the executors.

### School Exhibition.

On last Wednesday evening the pupils of Miss Winfield gave their second exhibition in their school house opposite Bellevernon.

A very large audience greeted the young people, and much enthusiasm was manifested in their performance, especially in the musical part of it, which was received with applause from all. Where all acquitted themselves so well it is impossible to discriminate in favor of any one by particular mention. The least that can be done, however, is to accord both teacher and scholars the praise they merit for the talent and proficiency displayed.

### Defaulting Jurors.

Attachments were issued yesterday in the District Court, by Judge Kirkpatrick, for six defaulting jurors, as follows:

Henry Kraft, cabinet maker, Eleventh ward, Pittsburgh; James Lawton, carpenter, Fourteenth ward, Pittsburgh; Robert McAyeal, farmer, Findley township; Jas. H. Parker, pork packer, Fourth ward, Pittsburgh; B. F. Ralston, book-keeper, Seventh ward, Pittsburgh; Joseph Spencer, merchant, Twentieth ward, Pittsburgh.

In directing that attachments be issued, his Honor stated that some of the parties were within sound of the Court House bell and knew the duty of every good citizen when called upon to do jury service, and that they, in common with every other citizen, must discharge this duty, or show good reason why they should not.

## PUBLIC AMUSEMENTS.

### Pittsburgh Opera House.

Mr. Stetson and Miss Sommers appeared last evening in "Neck and Neck" to an audience not very large, but excessively appreciative. The play ought to meet the expectation of the most exacting lovers of the realistic and sensational. It is not often that the process of hanging a man is faithfully counterfeited on any stage; but Mr. Stetson submits to that treatment, and is only saved from strangulation by the timely appearance on the scaffold of *Jennie* (Miss Sommers), who cuts the almost fatal rope. It is very stirring. We cannot rank the two "stars" with Booth and Cushman but they appear to do what is required of them faithfully enough. The stock company need not fear a comparison with the visiting actors.

To-night "Damon and Pythias" will be performed, with Mr. Gotthold as *Pythias*. This piece will prove attractive to the many strangers in town to-day, all of whom we can assure of the pleasure to be found in Mr. Gotthold's rendition of this thrillingly interesting character.

### The Guenther Concert.

Prof. William Guenther's third annual concert was given in Library Hall last evening, before a moderately large audience, made up of people who went to enjoy the music and show their appreciation by applause. We append the full programme:

1. Quintetto, Introductione and Allegro, for Flute, Clarinetto, Oboe, Bassoon and Corno.............Ant. Reicha.
   Messrs. Wm. Guenther, J. Friesel, J. Hirsemann, F. Dietz, J. B. Eyth.
2. Ouverture, Poet and Peasant...Fr. v. Suppe.
   Miss Sophie Strunz and Mathilde Bieler.
3. Blue Danube, Waltz for two Flutes and Piano.............Strauss.
   Messrs. R. B. Black, M. H. McGeary and Miss Kate Thorn.
4. Carnival of Venice, with variations for Piano.............Voss.
   Miss Saddie McKee.
5. Quartetto, Andante for four Flutes, [Henri Sousmann.]
   Messrs. M. H. McGeary, R. B. Black, W. H. Nimick and Wm. Guenther.
6. Leretour du Soldat.............G. Lange.
   Miss Lettie D. Browne.
7. Quintetto, Andante and Mennetto, for Flute, Clarinetto, Bassoon and Corno.............Ant. Reicha.
   Messrs. Wm. Guenther, J. Friesel, J. Hirsemann, F. Dietz, J. B. Eyth.
8. Potpourri, Martha, for Piano......S. Smith.
   Miss Kate Thorn.
9. Quartetto, Allegretto for four Flutes.............G. Kummer.
   Messrs. M. H. McGeary, R. B. Black, W. H. Nimick, and Wm. Guenther.
10. Loreley, Thema, with Variations for Piano.............Fr. Abt.
    Miss Emma Strunz.
11. Old Folks at Home, with Variations for Flute (new).............Wm. Guenther.
    Prof. Wm. Guenther.
12. Quartetto, for Flute, Clarinetto, Bassoon and Corno.............L. v. Beethoven.
    Wm. Guenther, J. Friesel, F. Dietz, J. B. Eyth.

While each and every number was rendered to the satisfaction of the auditors, Nos. 1, 3, 4, 5, 7, 8, and 11 were notably fine, and received more plaudits than the others. Miss Kate Thorn and Miss Saddie McKee were honored with recalls, but merely appeared and bowed their acknowledgments. No. 11, Prof. Guenther's own composition, does him infinite credit. The entertainment was quite enjoyable throughout, and would bear repetition.

### Academy of Music.

The entertainment of the Royal Marionettes was only fairly attended last night, other attractions having drawn away many who would otherwise have gone thither. Everything passed off in the pleasantest manner, those who were present being amply rewarded. The programme is much the same as that given last week, opening with the minstrel scene, followed by the variety acts, and closing with the pantomime of "Little Red Riding Hood," with its funny clown and pantaloon, fiery dragon, balloon ascension, and glittering transformation. The latter far surpasses anything of the kind ever shown here.

The Marionettes may be seen again this evening. Secure seats during the day at the Academy box-office.

### Trimble's Varieties Theater.

A good audience was present at this theater last evening, to see the wonderful double and triple somersaults, posturings, etc., of those wonderful Russian gymnasts, the Jackley family. The variety olio is very good, and taken as a whole, no better performances have been given here. All appear again.

### Library Hall.

On Thursday evening next Mrs. G. C. Howard will appear at Library Hall in "Uncle Tom's Cabin," personating the girl that "jist growed," the irrepressible *Topsy*. Mrs. Howard has been identified with this character ever since Mrs. Stowe's great novel was dramatized, being cast for it on its first presentation. She will be aided by a good company. Seats may be secured at Hale's music store, No. 103 Smithfield street.

### Robinson's Great Show.

The numerous cages, vans, chariots and wagons used in the various departments of Old John Robinson's World's Exposition, paraded through the principal streets of the city yesterday morning, making a splendid pageant. The first performance was given in the afternoon on the lot at the Allegheny end of the Suspension bridge, and drew a very large crowd. The menagerie, museum and aquarium are very fine, all the animals, birds and marine monsters advertised being on exhibition. The circus performance of the afternoon was not satisfactory to the management, the ground being in bad condition from the heavy rains of Sunday night. The main features of the performance are first-class. Kelly, the great leaper, who easily vaults over sixteen horses, appears at each performance. Stickney, Miss Lake, Miss Stickney and other great equestrian performers are also in the company.

Last evening the immense tent was filled to repletion, in the neighborhood of 5,000 people being jammed into it. The circus performance was all that could be desired, the audience seeming to go wild over a great many of the difficult and daring acts.

The great show will remain four days longer, giving two performances each day—afternoon and evening. Mr. Robinson himself is expected to arrive from Cincinnati to-day.

### Kelly and Leon's Minstrels.

Mr. Charles Melville, advance agent of Kelly and Leon's minstrels, is in the city, and has made arrangements for the appearance of the troupe at Library Hall, on the evenings of the 28th and 29th inst. This is one of the oldest and best minstrel organizations in the country.

### Adam Forepaugh's Show.

Adam Forepaugh, a prince among showmen, will have his immense establishment in this city and Allegheny all of next week, beginning at East Liberty on Monday, corner of Penn avenue and Thirty-first street on Tuesday, Birmingham on Wednesday, and Allegheny City the three succeeding days.

## THE LATE MAYOR CALLOW.

### His Remains Lying in State at City Hall—Arrangements for the Funeral—Resolutions of Condolence Adopted by Different Bodies.

Pursuant to action of Allegheny Councils, the remains of Hon. A. P. Callow, late Mayor of Allegheny city, were yesterday morning taken from his late residence to City Hall, escorted by a Guard of Honor from the Grand Army of the Republic, and a squad of Knap's Battery.

DECORATION OF THE HALL.

The remains, encased in a handsome casket, bore a life-like expression that was remarkable. The coffin was placed on the catafalque stationed at the foot of the stairway leading to the second story of the building. The recesses leading into the Treasurer's and Postmaster's offices were shut off with large flags suspended from the ceiling, and the arrangements were such as to allow those who called to view the body, to pass in the hall enterance on Federal street, and out a side enterance of the new wing on to Ohio street. The flags which, tastily draped in mourning, were hung in the hall and about the coffin, nearly all bore some significance of the memorable scenes in which the deceased was a participant. There were two battle flags of the Twenty-third Pennsylvania Volunteers, a battle flag of Knap's Battery, the "Champion" flag of the Heath Zouaves, the flag of the celebrated Minute Men of the Fourth ward, bearing the motto "Always Ready to Defend." There was also a silk flag from Post 88, G. A. R., and a guidon, which stood at the foot of the casket. At the head of the coffin was the Sixth Corps badge belonging to Post 151, G. A. R., and the Mayor's chair, draped in mourning. Surrounding the coffin on the catafalque and on the body were beautiful floral decorations, furnished and arranged by Post 88, G. A. R., Young Men's Republican Club, Knap's Battery, and other organizations.

VIEWING THE REMAINS.

After the arrangements had been completed in the Hall, and detachments of Post 88, G. A. R., Heath Zouaves, and police placed on guard, the doors were thrown open and large numbers of persons filed in to view the remains for the last time, and a steady stream of people kept passing through the Hall until four o'clock in the afternoon, when the remains were removed to his late residence. All the city offices were closed while the remains were lying in state, and will remain closed until after the funeral.

ARRANGEMENTS FOR THE FUNERAL.

Brief funeral services will be held at the late residence of the deceased this afternoon, conducted by the Rev. McMillen, of the Second U. P. church. The procession will move toward the cemetery at two o'clock.

All the various organizations are requested to be in line at half-past one o'clock, and will meet at the places appointed early enough to comply with the request. The formation will be as follows: The police will form on Federal street, right resting on Montgomery avenue; the military on North avenue; the Odd Fellows, K. of P., and other societies on Sandusky street; the 102d Regiment and G. A. R. on Montgomery avenue, right resting on Federal street; firemen in the rear of the last named; carriages containing councilmen of the two cities will form on Union avenue, right resting on Montgomery avenue.

ROUTE OF PROCESSION.

The route of procession is fixed as follows: From residence on Montgomery avenue to Federal street; along Federal to Ohio street; along Ohio to Chestnut street; down Chestnut street to Sixteenth street bridge; thence to Penn street, and along Penn street to Allegheny Cemetery.

PROCLAMATION OF MAYOR NEILLIE.

The following proclamation was issued yesterday:

I, D. Neillie, Mayor of the city of Allegheny, do issue this, my proclamation, that,

WHEREAS, It has pleased an all-wise Providence to remove from this world Hon. A. P. Callow, the Chief Magistrate of the city, I desire and request, that as a mark of respect to the memory of the deceased, all business within the city be suspended, and places of business closed between the hours of twelve o'clock A. M. and four o'clock P. M., on Tuesday, the 21st inst.

In testimony, whereof, I have hereunto set my hand and affixed the seal of the said city of Allegheny, this 20th day of April, A. D. 1874.

D. NEILLIE, Mayor.

BOARD OF POOR DIRECTORS.

The Allegheny Board of Poor Directors met last evening to take appropriate action on the death of Mayor Callow. The following resolutions were unanimously adopted:

WHEREAS, It has pleased God in His infinite wisdom to remove from our midst in the maturity of his manhood, Hon. Alexander P. Callow, Mayor of the City of Allegheny and

WHEREAS, While we humbly bow in sorrow at the will of the Supreme Ruler, we feel it a privilege to make some record of our esteem and respect for our late Chief Magistrate; therefore be it

*Resolved*, By the Board of Directors of the Poor of the City of Allegheny, that in the death of A. P. Callow, the city has lost a valuable citizen and an efficient officer, and his family a loving husband and father.

*Resolved*, That the sympathies of this Board be tendered to his bereaved family as a mark of respect that we attend his funeral in a body, and that the resolutions be spread upon the minutes of the Board.

*Resolved*, That a copy of these resolutions be engrossed and presented to his grief stricken family.

The Board will meet at the office in the city building at one o'clock this afternoon.

## THE BANK SWINDLER.

### Hearing Before the Acting Mayor—Held For Trial For Forgery—Other Operations Reported.

Yesterday afternoon the International bank in answer to a dispatch sent by the cashier, received a telegram from Tapscott Bros & Co., New York, stating that they had no account with the Ninth National bank of that city and that they did not know Henry Allen who present their letter of introduction in this city. Mr. Schoonmaker the clerk who had previously made the information against Allen, or John Doe, as he gave his name at the lock-up for false pretence, appeared before Acting Mayor McMasters and preferred a charge of forgery.

At four o'clock a hearing was had when R. J. Powers, Esq., appeared for the prosecution, and John Coyle, Esq., for the defense. Mr. Moore, Cashier, and Mr. Schoonmaker were examined at length as to the action of the defendant, and after an argument from counsel the telegram was admitted in evidence. The signature of Allen as given at the bank, and the name of Allen in the letter of credit or introduction, appeared to be in the same handwriting. The defendant was committed to trial in default of $5,000 bail.

OTHER OPERATIONS.

It appeared during the examination that several other attempts in the same line of swindle had been attempted. On Saturday Allen called upon Mr. Speer, cashier of the Freehold bank, and presented a letter, almost word for word, like the one presented to Mr. Moore, from Tapscott Bros. & Co., New York, in which they referred him to C. M. Jordan, cashier of the Third National bank, New York. The letter was written with a quill, and feigned to have been copied on a press, but the ink was still fresh. Mr. Speer also thought it strange that if Mr. Jordan wanted to be used as a reference he did not write himself, instead of Tapscott Bros. & Co. writing for him. Telling Allen to call again next (this) week, Mr. Speer at once mailed the letter to Mr. Jordan, asking about it. Of course Mr. Allen did not have an opportunity to call again, but yesterday morning Mr. Speer was ready for him, having received the significant answer by telegraph: "Look out for breakers."

Another attempted swindle was made at the City Deposit bank, East Liberty, where a man, supposed to be the companion of Allen, who was so mysteriously liberated on Saturday, presented another letter of introduction in the same hand writing but from another firm in New York. He presented a $7,000 check, and, fortunately, Mr. Everson, the cashier, still holds it.

And now again comes the inquiry how did that other swindler get off. We learn that the officers who arrested him objected and no one will admit having let him off. We understand that an investigation into the matter is to be had, and the Acting Mayor asks it.

## K. OF P. BANQUETTING.

### Flag Presentation at Leonidas Lodge—Banquet to the Supreme Lodge.

Leonidas Lodge K. of P. 385 gave to the members of the Supreme Lodge of the World a banquet at Union Depot Hotel, last night. It was quite a grand affair, and was participated in by about one hundred knights.

Previous to attending the banquet, the lodge with their guests assembled in their lodge room and participated in a very pleasant flag presentation. A most beautiful banner, made by the ladies and presented to the lodge, was for the first time unfolded to the sight of the members. Past Grand Chancellor Russell, of Missouri, and representative of the Supreme Lodge, made a neat presentation speech, which was responded to in equally appropriate remarks by Past Grand Chancellor Ward, of Philadelphia.

At the banquet S. U. Weeks made a speech of welcome to the Supreme Lodge, in which he complimented the lodge, and said that though it was a young lodge it was a rising power in the order, and promised to be one of the brightest stars in the confederacy of lodges.

Past Grand Chancellor Russell made an eloquent speech in response, and his remarks were received with enthusiastic applause. He was followed by Supreme Representative Wade, of Virginia, whose remarks were both patriotic and eloquent.

J. M. Gazzam, Esq., was at this time called upon, by motion of Dr. Sprecher, to preside, and on taking the chair made a felicitous and eloquent address.

In response to a toast to Ohio, P. G. C. Hays made a very forcible and amusing address, in the course of which he mentioned that the order had extended to England, a lodge called "Brittania" having been organized in London recently.

Further addresses were made by Supreme Representative Geary, of Kansas; Past Grand Chancellor Blankbois, of Pennsylvania; Past Chancellor Ward, of Philadelphia; Past Chancellor T. G. Sample, of Pittsburgh; Chancellor Commander G. A. Sprecher, and others. The banquet was adjourned at a late hour.

## THE TRADESMEN'S BANK.

### Removal to the New Quarters.

The Tradesmen's National Bank, one of our foremost monied institutions, as will be noticed by the card in another column, has removed to the new bank rooms, for some time in preparation, corner of Wood street and Fourth avenue. The new location is much more central, and will admirably suit the business interests of the city. The rooms are large, light and airy, and both the patrons and officers of the bank will have first-class facilities. The Tradesmen's is one of our best conducted institutions, and has the fullest confidence of the business community. The officers names are enough to give it strength. Alexander Bradley, President; William Vankirk, Vice President, and Cyrus Clark, Jr., Cashier. They will be pleased to see all old customers of the bank, and such new ones as may favor them with their patronage, at their handsome new rooms.

## TRUSTEE'S SALE.

### Brick Dwelling and Church Buildings at Auction.

Attention is directed to the advertisement elsewhere printed, of the auction sale by Messrs. Jas. W. Drape & Co., of valuable property in the Third ward, this city. The Lutheran church building, corner of Sixth avenue and Grant street, the Baptist church building next on Grant street and the two-story brick dwelling near by, will be sold to the highest bidders this, Tuesday, afternoon, commencing at three o'clock. For a public building, or for business purposes, the site and location of this valuable property are of a very superior character, and deserving the special attention of capitalists and men of business. Here is an unusually good chance for a lucrative investment. The property must enhance in value.

## THE FIRE DEPARTMENT.

### Special Meeting of the Commission—The Skinner Truck Accepted—Reckless Driving to be Stopped.

A special meeting of the Board of Fire Commissioners was held last evening; present, Messrs. Jones, Larimer, Pitcairn, McIlroy, Walton and Wilson, President.

The estimate of the architect upon the work of the contractors L. Benz & Bro., building the new engine house on the South Side, was approved, and a warrant ordered for $3,018.

THE NEW TRUCK.

The new Skinner truck was accepted, and it was decided that it be placed in the Seventh avenue house. It was also ordered that the "Harry Oliver" truck "A" be placed on the South Side, and that truck "C," now on the South Side, be repainted and placed in East Liberty.

The Chief Engineer was, on motion, instructed to drill the men with the new truck at least twice a week, until they became familiar with its workings.

FAST DRIVING.

The Chief Engineer brought up the subject of fast and reckless driving, stating that there had been some complaints made, and fears were entertained by many citizens that serious accidents might occur.

The subject was discussed at some length, and members stated that races between apparatus too frequently occurred.

Mr. Porter, a member of the Philadelphia Board of Fire Commissioners being present, was called upon, and stated the experience in that city. He said that the frequent accidents that happened caused the commission to issue an order forbidding the driving of the horses faster than a trot between the hours of seven A. M. and half-past ten o'clock P. M., and it had been found to work well.

On motion of Mr. Pitcairn, the Chief Engineer was ordered to instruct the drivers not to put their horses to a gait faster than a trot, between the hours of six A. M. and ten P. M., under penalty of discharge from the service.

Adjourned.

## COURT PROCEEDINGS.

### U. S. District Court—Judge McCandless.

John Bigley vs. steamboat Oil Valley, in admiralty. Commissioner Bailey's report in the distribution of the fund presented and filed subject to exception within ten days.

### District Court—Judges Kirkpatrick and White.

Marker Rush vs. H. S. Fleming, ex-Sheriff. This was an action to recover some $800. The suit had its origin in the following state of facts: Some time since Messrs. Dillinger & Stevenson obtained a judgment against Levi Rush, proprietor of the Point Breeze Hotel, in the sum of $700. The Sheriff seized the property, and was about to sell it upon an execution, when the plaintiff in this case (Marker Rush, a brother of Levi Rush,) put in a claim, alleging that the property was his. Under the Sheriff's interpleader act, a feigned issue was ordered to test the question of ownership. The Sheriff was ordered to satisfy the judgment, which he did. At a subsequent time Messrs. Carr & Co. obtained a judgment gainst Levi Rush, in the sum of about $800, and an execution having been issued, the claim of ownership was set up by Marker Rush. The Sheriff proceeded with the levy, and satisfied the judgment against Levi, notwithstanding the claim of his brother as to the ownership of the goods seized. The plaintiff then instituted this suit, to recover the amount of the second judgment against Levi Rush, alleging that the proceeding on the part of the Sheriff, without any authority from the Court, was illegal and void. It was in evidence that Levi Rush took out the license, and gave the customary bond to the County Treasurer, in his own name. On trial before Judge Kirkpatrick.

Geo. A. Q. Miller vs. Miller, Forse & Co. Action to recover salary as a traveling agent for the sale of goods. On trial before Judge White.

### Quarter Sessions—Judge Collier.

In the case of Edward Grinder, Joseph Weiser and Chris. Weiser, tried on Friday for larceny, the jury yesterday returned a verdict of acquittal as to the two last named, and convicted Grinder, whom they recommended to mercy.

In the case of John Christoffel, also tried Friday for cruelty to animals, the jury found a verdict of not guilty, but directed the defendant to pay the costs.

Gus. A. Thuman was tried and convicted of an assault and battery on Christopher F. Haller.

In the case of Benjamin Schlup, indicted for embezzlement, a *nolle pros.* was allowed, on the payment of the costs by the defendant.

Eliza Bell was next tried on a charge of false pretenses, C. J. Tower prosecutor. The jury found a verdict of not guilty, prosecutor to pay costs.

Wm. H. Wilson plead guilty to obstructing an officer, E. W. Cornish being prosecutor.

Samuel Pyle, charged with Mayhem in biting off Christ. Heisel's nose, was on trial when the court adjourned.

## THE TEMPERANCE CAUSE.

### Two Meetings Last Night—Protest Against a Repeal of the Local Option Law—A Delegation of Crusaders to Visit Harrisburg.

A temperance mass meeting was held last evening, under the auspices of the Women's Christian Temperance Union, at the First U. P. church, Union avenue, Allegheny. Notwithstanding the short notice of the meeting, a very large audience was present, and great enthusiasm prevailed.

The Hon. Felix R. Brunot was called to the chair, and, after appropriate opening exercises, briefly stated that the meeting had been called to consider what could be done to prevent a repeal of the local option law.

After his remarks the Rev. Mr. Robinson spoke. He explained at some length the object of the meeting and spoke upon the great necessity of prompt and decisive action in the part of the temperance people. In his address the reverend gentleman related a conversation he had with a member of the Legislature from Allegheny county in which that gentleman said those members favoring repeal were acting very unfairly.

The Rev. Mr. Bain was the next speaker. He maintained that it would be a perfidy and an outrage for the Legislature to pass a bill that would repeal the Local Option law in those counties where people had voted in favor of it. The people, he said, would be awakened to the cause of temperance if the outrage is committed.

The Rev. Mr. Robinson, chairman of a committee appointed to draw up a set of resolutions expressive of the feeling of the meeting presented the following petition to the Legislature:

*To the Honorable Members of the Senate and House of Representatives of the Commonwealth of Pennsylvania:*

GENTLEMEN: At a mass meeting of citizens of the cities of Pittsburgh and Allegheny, assembled at the call of the Women's Temperance Union, held in the First United Presbyterian church, Allegheny, Monday evening, April 20, 1874, the following preamble and resolutions were unanimously adopted:

WHEREAS, We have been informed there is now before your honorable bodies, a bill, which, if enacted, will virtually abrogate the Local Option law now in force; therefore be it

*Resolved*, That we learn with deep regret, that there are those who are unwilling to permit the Local Option law to remain in full force, for and during the period of three years, so that it may have a fair and impartial trial.

*Resolved*, That we look upon all efforts to repeal or impair the provisions of the Local Option Law, as a violation of good faith and a great public wrong upon those counties and localities in our Commonwealth which are just beginning to reap the benefits of that law.

*Resolved*, That we earnestly request all the members of the Senate and House of Representatives to use all lawful and honorable means in their power to prevent any and all interference with the Local Option law.

*Resolved*, That the members of both Houses from this county be especially urged to enter their solemn protest against the infringement or repeal of the Local Option law.

The form of petition was unanimously adopted, and on motion was referred to the Executive Committee of the Women's Union, to be presented to the Legislature by them.

THE DELEGATION TO HARRISBURG.

Some discussion was had here as to how the petition should be gotten to Harrisburg, and Miss Haller informed those present that a committee of twelve ladies had been appointed to go there in person and appear before the Legislature. Some curiosity was manifested to know who were members of the committee, but the arrangements have not yet been completed, besides there is likely to be a change made, and the names were not given. The ladies will meet in the Alliance rooms this morning to complete arrangements. The delegation will take their departure from this city in one of the evening trains so as to arrive at Harrisburg on Wednesday morning.

After the above facts had been made known, Mrs. Harper, the Philadelphia colored lecturess, was called upon by Mr. Brunot. She ascended to the pulpit, and after shaking hands with Mr. B. opened her address with some general remarks upon reform, tending to show that the present was one of the grandest reformatory ages of the world. The women's movement, she claimed, was the grandest reformatory work of the age, and she administered sharp rebuke to those who offered insult to the ladies while engaged in that work. The speaker declared herself in favor of not a Local Option law, but a Prohibitory law, telling of the great evil of the liquor business, and assigning that as her reason for taking such a position. She wished all persons to be arrayed against intemperance, and showed that a persistent agitation must be kept up to bring about that result. She closed her address with brief remarks on the small amount of reverence for man, had by our people, claiming that this must be remedied before any deep interest in the drunkard can be felt, or any permanent reform from intemperance be brought about.

MEETING IN THE REV. DR. HOWARD'S CHURCH.

A meeting was also held at the Rev. Dr. Howard's church, corner of Penn avenue and Seventh street. The attendance at this meeting was not so large. Great enthusiasm prevailed and earnest speeches were made against the bill to repeal the Local Option law now pending in the Legislature. We regret that we have not space to give the remarks at length.

The following protest was submitted to the meeting:

*To the Honorable members of the Senate and House of Representatives of the State of Pennsylvania:*

The Women's Christian Temperance Union of Pittsburgh and Allegheny in the behalf of ourselves, and as we believe, of a majority of the people of these cities and of Allegheny county do hereby in the most earnest manner, and in the name of humanity and of our Christian civilization, in the name of good order, and peace and happiness of society, in the name of God and of all that is dear and good among men, protest against the repeal of the Local Option law and of the Prohibitory liquor laws in those localities where they now exist, and against any and all legislation directly or indirectly favoring the liquor traffic or removing any of the restrictions now existing upon said traffic.

The form of protest was unanimously adopted and referred to the Executive Committee of the Women's Union with the understanding that it be presented at the State Capitol to-morrow.

## THE 102d REGIMENT.

### Action on the Death of Adjutant Callow.

A number of the members of the 102d Regiment Pennsylvania Volunteers assembled at Muncipal Hall yesterday afternoon to take action upon the death of their late Adjutant, Alex P. Callow.

Lieutenant Colonel McLaughlin was called to the chair, wereupon a committee consisting of Messrs. McIlwaine, Lewis and Donaldson, was appointed to draft resolutions.

On motion all members of the 102d were invited to attend the funeral of Adjutant Callow in citizens dress, and members of other regiments were invited to join.

A committee was appointed to confer with the committee on arrangements for the funeral.

The following resolutions presented by the committee were then adopted.

WHEREAS, Our comrade, Adjutant Callow, of "the One Hundred and Second," has been called to take his place "in the silent ranks of death," therefore

*Resolved*, That while sorrowful at this loss of a brave comrade, the memory of his devotion to his country in the hour of her great peril, and a knowledge of his soldierly performance of his duties in the march, the battle field, and the camp, gives consolation in our sadness for his loss.

*Resolved*, That his memory will always remain with us as a part of our remembrance of the participation of "the Hundred and Second" in the "war for the Union;" and his name will not be forgotten when the narrowing ranks of the survivors of the regiment recall in social converse, the incident of the well fought field and perils in the deadly breach.

*Resolved*, That though happily spared to receive civil honors at the hands of his fellow-citizens, a meet reward for gallant conduct, we will hold his name enrolled in our hearts with the brave dead of the Hundred and Second, who fell upon the field of battle, as their worthy comrade.

*Resolved*, That while we are aware that to those who have lost a husband and a father, these poor words of condolence give little consolation, yet we tender to them our sympathy in this their hour of affliction, and sorrow with them in their grief, trusting that the testimony we bear to the patriotism, bravery and worth of Adjutant Callow of the Hundred and Second, will be as an heirloom of great value.

*Resolved*, That a copy of these resolutions be presented to the family of the deceased and published in the papers of the city of Pittsburgh and Allegheny.

Adjourned to meet at Municipal Hall at 1 o'clock P. M. to-day to attend the funeral under the lead of Lt. Col. McLaughlin.

## MEETING OF PRINTERS.

### Action in Regard to the Death of Hon. A. P. Callow.

A meeting of the printers of this city was held in the COMMERCIAL composing room yesterday afternoon at four o'clock to take suitable action in regard to the death of their late fellow-craftsmen, the Hon. A. P. Callow.

On motion Mr. B. F. Latshaw was called to the chair and Messrs. John Stewart, John H. Joy, James Vick, E. D. Gazzam, Hugh Adams, John S. Bosler, Alex. Hunter and Wm. McWilliams appointed Vice Presidents.

On motion, Messrs. James H. Clark, T. A. Armstrong, B. F. Latshaw, Charles E. Barr and Patrick Byrne were appointed a Committee on Resolutions.

The committee submitted the following, which were unanimously adopted:

WHEREAS, The Hon. A. P. Callow, of Allegheny City, has been removed by death, in the midst of a useful and honorable career, therefore,

*Resolved*, That in the death of Mr. Callow the Typographical fraternity has lost an honored member; and one who, by his skill and industry, reflected credit upon the craft of Pittsburgh.

*Resolved*, That as a public officer Mayor Callow has been justly recognized as one who has discharged his official duties with honor and fidelity.

*Resolved*, That as a patriot and soldier he has made a record of which his native country may justly feel proud; and that we, his fellow-craftsmen, commend the veteran soldiery of these two cities for the distinguished honor which they have done to the memory of the deceased.

*Resolved*, That we tender to the bereaved family the sincere condolence of the printers of Pittsburgh, and that a copy of these resolutions, properly engrossed, be presented to his widow.

*Resolved*, That we attend the funeral of the deceased, in a body.

The meeting then adjourned.

### The "Dispatch" Libel Suit.

Major Brown, counsel for the editors of the *Dispatch*, yesterday filed a motion for a new trial in the Kredel case. The plaintiff, it will be remembered, obtained a verdict for $750 against O'Neil & Rook last week. The reasons alleged are: That the verdict is unjust and the damages excessive; that plaintiff's counsel during the trial, illegally read from the case of Pittock vs. O'Neil with intent to influence the verdict; that the court erred in not withdrawing the case from the jury, as requested in consequence of this latter act; that the court erred in not warning the jury against being influenced in that improper way; in admitting evidence as to the social standing of the defendants and in not instructing the jury that they should not give punitive or vindictive damages.

### Council Meeting this Afternoon.

The members of Select and Common Councils will meet this (Tuesday) afternoon, at one o'clock, in their respective chambers, to attend, in a body, the funeral of Hon. A. P. Callow, late Mayor of Allegheny City.

A. H. GROSS,
President of Select Council.
W. B. NEGLEY,
President of Common Council.

### Temperance Choral Club.

To-morrow evening will be presented at Library Hall a musical temperance drama, "The Tipplers," by the St. Paul's Temperance Choral Club. The drama was specially composed for the club by Professor S. Bissell, of this city, and has been complimented very highly by those who know of it. The drama will, no doubt, prove highly entertaining, and as the proceeds will be devoted to the benefit of the Public Catholic Library, the club should be favored with a large attendance.

## KNIGHTS OF PYTHIAS.

### The Supreme Lodge Meeting To-Day—Arrival of Delegations.

To-day the annual meeting of the Supreme Lodge of Knights of Pythias will take place at the rooms of Leonidas Lodge No. 335 of this city, corner of Wood street and Sixth avenue. To-morrow a grand street parade will take place as has already been reported in which, Lodges from all parts of the State and some members from other states together with all our home Lodges will join. Yesterday and last evening there were constant arrivals of delegations, among them the following:

Supreme Lodge officers quartered at the Central Hotel:

Samuel Read, Mount Holly, N. J., Supreme Vice Patriarch.

H. C. Berry, Chicago, Supreme Chancellor.

W. J. Long, Grand Rapids, Mich., Supreme Scribe.

W. A. Porter, Philadelphia, Supreme Banker.

W. A. Kennedy, Cincinnati, Supreme Guide.

Joseph D. Weeks, Pittsburgh, S. U.

C. H. Hodgson, Berkley Spring, West Virginia, V. U.

Washington City delegation with the Fort Whipple United States Band.

Baltimore and Cumberland delegation with the Fifth Maryland Regiment Band.

Representatives also arrived from Cincinnati, Chicago and Philadelphia.

The Supreme officers will be escorted by the Pittsburgh Knights from the Central Hotel this morning, headed by the Cathedral band, to the Commercial Hall, Wood and Sixth avenue, where they will be introduced to Captain Haymaker, after which an executive session will be held.

The banquet of Leonidas Lodge, of this city, to the Supreme Lodge, given last night, is noticed elsewhere.

On Thursday evening a grand banquet will be given at the Central Hotel, for which the Messrs. Barr are making extensive preparations. The well known reputation of these gentlemen and the high standing of this hotel warrant us in saying that it will be one of the finest affairs of the kind ever had here.

## CITY MATTERS IN BRIEF.

JOHN SCHUTTLER, who was placed in jail, charged with the larceny of articles belonging to old Mrs. Branalein, murdered in last October, has been discharged upon his own recognizance.

AN ALL day prayer meeting was held by the lady crusaders yesterday at the Y. M. C. A. rooms. In the afternoon a delegation of thirteen of the ladies went to City Hall, Allegheny, to view the remains of Mayor Callow.

MEMBERS of the Heath Zouaves, and all men who have been members, are earnestly requested to meet at the Central Armory, Market street, at one o'clock this afternoon, to attend the funeral of Hon. Alex. P. Callow.

"OUTLINES of Bible History and Chronology" will be the topic under discussion this evening before the Normal class of Sunday School officers and teachers. The exercises will be held at the Liberty street Methodist Episcopal church, and will be open to the public.

TOM JONES fell off the Grey Eagle the other day and left Miles Warren's spec's in the river. A darky "cotch a cat," at the dam, and in the fish were the spectacles. The darky says, "I *specs* dat cat-fish carried dem specs for *Miles—I'll Warren't ye*" Miles *sees* it. Next!

JEAN REVORE, an aged Frenchman, living in Bracken county, has the soundest memory in the United States. He has a distinct recollection of being at Fort Duquesne—now Pittsburgh—at the time of Braddock's defeat, in 1755, or 119 years ago. Blue ribbon for Bracken.

A REGULAR meeting of the Womens' Christian Temperance Union will be held this afternoon in the Reformed Presbyterian church, on Eighth street, Rev. Mr. Milligan, pastor, commencing at half past two o'clock. Mrs. Harper, a colored lady speaker from Philadelphia, will be present and address the meeting.

THE Allegheny Third ward schools were not well attended yesterday morning owing to the superior attractions presented by the circus procession, and the directors have decided to dismiss the the schools temporarily hereafter on similar occasions. The attendence at the majority of the schools was rather limited.

A CROWD of men and boys who were dispersed by officers Atkinson and Harris from around the canvas of Robinson's show last night, retired to an adjoining pile of bricks and commenced hurling them at the officers. Atkinson was struck on the head by one of the missiles, and sustained a slight cut. Harris was struck on the back, but not seriously hurt.

THE Press Association of Pennsylvania, Ohio and West Virginia have chosen Col. W. S. Foulk to act as their agent in this city. The selection is, we think, a judicious one. Col. Foulk is an old journalist and a man of fine business capacities, as well as of untiring energy. Persons desiring to contract for advertising with any of the newspapers in the country-tributary to Pittsburgh, will be able to find him at Nos. 67 and 69 Fifth avenue, second floor.

DR. A. P. HEICHHOLD, Special Agent of the Treasury Department, arrived in town yesterday morning. The Doctor left Saut Ste. Marie on the night of the 12th inst., and drove through the wilderness to the Straits of Mackinac with horse and cutter. He there took the ice across the straits to Sheboygan, Michigan. He drove the distance of ninety miles in fourteen hours, and then took steamer. The ice was about two feet thick, and sleighing good. The thermometer on the morning of the 12th was two degrees below zero. The Doctor goes to his home in Brookville on leave of absence, after which he goes on a tour of inspection among the custom houses in Florida, and promises to let us hear from him in the land of flowers, as he did in the land of ice. The Doctor's letters are always interesting.

## RARE CHANCE FOR BARGAINS.

### Great Sale of Lots in Latrobe.

The attention of those wishing to invest in real estate is directed to the advertisement of Messrs. Lloyd, Huff & Watt, who offer fifty building lots in West Latrobe, together with a brick mansion and one acre of ground. This is a very flourishing town, and is rapidly taking rank as a manufacturing and business center. A large number of lots have already been sold, and first-class improvements have already been made, while others are projected. This sale will take place on to-morrow, the 22d instant, and will be the closing sale. For fuller particulars read the advertisement in another column.

### Million and Success.

We would ask all who intend buying a new Cook Stove to call and examine the Million and Success at

JOHN B. HERRON & Co.'s,
No. 291 Liberty street.

### Perfection of Quality.

At the grand Paris Exposition, 1867, the first prize medal was awarded the Messrs. Duryea, manufacturers of Duryeas' "Satin Gloss Starch" and Duryeas' "Improved Corn Starch," for the perfection of quality of their goods. The first prize medal was also awarded them at London (World's Fair), 1862; Cologne, 1865; Hamburg, 1863; Amsterdam, 1869; Havre, 1862; Baltimore, 1859; Pennsylvania State Fair, 1863; Northern Ohio Fair, 1870; Inter-State Fair, Pittsburgh, 1870; South Carolina Institute Fair, 1870, &c., &c. It, therefore, stands recommended, without comment of the makers, as *the best starch in the world*.

### Lippincott's Keystone Soda Fountains.

In the above-named apparatus the wants of the trade have been carefully studied, and we now present an apparatus in which purity, strength and durability are combined with unequaled workmanship and elegance of design. Before purchasing, please call and examine our samples or send for catalogue. We are able to present many new and elegant designs, and this season have many novel features to produce in every article appertaining to the business, more specially a full line of extra choice fruit essences of the following flavors, in pound bottles, at low prices:

| | | |
|---|---|---|
| Vanilla, | Raspberry, | Ginger, |
| Lemon, | Pineapple, | Sarsaparilla, |
| Strawberry, | Orange, | Fruit Acid, |
| Orgeat, | Sherbet, | Peach, |
| Nectar, | Hock, | Rose, |
| Coffee, | Chocolate, | Blackberry. |

In an effort to produce an attractive apparatus, we have not lost sight of the essential point of a good apparatus—viz: purity of production. This has had our closest attention. Every part coming in contract with soda water or syrups is thoroughly coated with pure silver or block tin. Don't forget to call at McClarren & McKennan's drug store, No. 85 Market street, Pittsburgh.

### A. Milliken & Co.

No. 64 Smithfield street, manufacturers of furniture of all kinds, are selling off at cost in order to dispose of their stock preparatory to building.

### Cooking Stoves.

The Jewel, Galaxy, Rival, Million, Improved Ihaho and Success Cooking Stoves are guaranteed to give satisfaction in baking and cooking. Call and examine them, at John B. Herron & Co.'s, No. 291 Liberty street.

STUPENDOUS MENAGERIE!
COLOSSAL CIRCUS!
AND ONLY MUSEUM!

West of New York City. A conflagration, at the Winter Quarters of this Establishment, early in the Fall, having destroyed nearly all the Cages, and entire Paraphernalia, 3,000 Mechanics and Artists, in the great Carriage Manufactories of Fielding Brothers, New York, Fulton & Walker and Jacob Rech, of Philadelphia, and in the Sail Lofts of Captain Martin, in Boston, and the Harness Factories of Demar, have been engaged all winter in equipping the GREAT FOREPAUGH SHOW, with New and Gorgeous Chariots, Cars, Cages and Canvas, and the Outfit of this Stupendous Aggregation, is the FINEST, MOST COSTLY AND SUMPTUOUS EVER SEEN in this or any other country. More than 1,000 Men and Horses constitute the working force of this Mammoth Show. 2,300 Beasts and Birds in the Great Menagerie. An Avalanche of Talent in the Great Hippodrome in Two Rings.

10,000 MUSEUM WONDERS.

And is the ONLY MUSEUM COMING TO PITTSBURGH this season, and the whole constituting by far the GREATEST MENAGERIE, THE FINEST AND LARGEST CIRCUS, AND ONLY MUSEUM NOW TRAVELING IN THE WEST. Compare our GRAND, GORGEOUS, GLITTERING PROCESSION, with every Cage, Car, Chariot, Van and Banner, Harness and entire Outfit, fresh from the hands of the most skilled workmen in the world, its magnificent Thoroughbreds, its Military Bands, and the Gilded, Life-like Statuary that adorns the Cages, as also the superb, refined, brilliant and dazzling pictures which embellish every Car and Chariot, *with any Exhibition that may come before or after the* GREAT FOREPAUGH SHOW, and all will admit the superiority in every respect of our Great Combination over all others.

It commenced the season of 1874 in the city of Philadelphia, from thence it exhibited at Baltimore, and after visiting Washington, exhibits at Pittsburgh.

SECOND
GREAT SALE
OF
Building Lots,
IN
WEST LATROBE.
THE UNDERSIGNED WILL OFFER AT PUBLIC SALE,
Wednesday, April 22d,
50 LOTS
IN THEIR PLAN OF WEST LATROBE, TOGETHER WITH THE
Homestead or Brick Mansion,
Contaning 4 Rooms and Kitchen, and large Hall on first floor, and 5 Rooms on second floor, on Lot No. 1 in the town plot, and having about 1 Acre of Ground attached. Also, the Material in a Frame Barn 40x60 feet. The large number of Lots already sold and the wealth and the ability of the purchasers, insures the success of West Latrobe as a town, and the erection of first-class houses, a number of which are already completed and occupied, and others are in progress. No more beautiful location for a town can be found west of the mountains, lying on the west bank of the Loyalhanna river, and being gently undulating makes it easy of drainage. Its streets are 60 feet in width and the Lots all have a frontage of 50 feet and vary in depth from 120 to 180 feet. A new iron bridge to span the Loyalhanna and connect its main avenue with Depot street in Latrobe is in contemplation and will undoubtedly be built.
Latrobe is destined to take a place in the front ranks of manufacturing centers, with its unbounded facilities for transportation, fuel and water. Three large Coal Companies are now in successful operation within one mile of the town, and another will soon be commenced. The Ligonier Valley Railroad is graded and ready for the iron which when completed will give access to the inexhaustible supply of iron ore and other minerals with which the Chestnut Ridge and Laurel Hill abound.
Latrobe, from the natural advantages that it possesses, must be the base of operations for the utilizing of these minerals. This will be the closing sale of Lots. They will not again be offered at public sale.
Conditions are one-third of the purchase money to be paid in hand, and the balance in two annual payments with interest, and to be secured by judgment bond or mortgage. Sale to commence at 1 o'clock P. M.
